Who are we?

whg was formed in 2003 with a mission of being dedicated to the success of our people and places. It's this mission that continues to guide and motivate us.

We started life in Walsall, where most of our homes are, and it is still the place that anchors us.

Today we operate across the Midlands, in local authority areas such as Walsall, Telford, Wolverhampton, Worcestershire and Staffordshire amongst others. We are proud champions of our great region, playing an active role in its future prosperity through regeneration, place shaping and community investment. We specialise in delivery through strategic partnerships, including with Homes England.

Our homes

We own and maintain around 21,000 homes, from flats in tower blocks to detached family homes and purpose-built wellbeing schemes for people aged 55+.

Every year we invest millions of pounds in our homes and neighbourhoods. Our in-house team of qualified trades colleagues carry out day-to-day repairs and maintenance while trusted commercial partners undertake large scale refurbishment programmes on our behalf. This includes replacing kitchens and bathrooms and fitting energy efficient heating systems.

Our resource and influence to make a positive difference for our customers and communities. We believe passionately that everyone has the right to a safe and secure affordable home and that this is the foundation for a successful life.

We are committed to doing everything we can

Buying your new home through shared ownership

We understand that getting on the property ladder in the current market is difficult - whether you're saving for a large deposit or stuck in a rental trap and feel it is an impossible task, then shared ownership can help.

What is Shared Ownership?

Shared ownership is a popular affordable housing scheme that allows someone to purchase share in a property, paying a mortgage on the share they own and a subsidised rent on the remainder.

Since the purchaser only needs a mortgage based on the share they're purchasing - typically between 10% and 75% of the property's full market value - the deposit required is often much lower than purchasing outright. Likewise, the subsidised rent means it's generally cheaper going through shared ownership rather than privately renting.

At any point, the purchaser can increase their share via 'staircasing', with the ultimate goal being full ownership, however, if the purchaser never wishes to do this, they will always remain as a shared owner.

How does Shared Ownership work?

Shared ownership is an affordable house scheme available through housing associations, local councils and private developers.

So, how does shared ownership work? You can apply for a shared ownership mortgage to buy your share or pay using savings, it really depends on what works for you. If you need a deposit, you'll generally need between 5% and 10% of the share amount, not the full market value.

Based on a full property value of £220,000, this means a 5% deposit for a 40% share (£88,000) may be as little as £4400.

This makes shared ownership much more accessible compared with the costs you'd pay through traditional purchase methods.

You then pay mortgage payments based on your share and below-market value rent on the remainder. As you purchase larger shares of the property through staircasing, your rent goes down and your mortgage payments go up.
