Residential Development Plas Isaf Drive, Abergele, Conwy LL22 8DG

We are pleased to bring to the market a high quality, residential development opportunity within a short walking distance of Abergele town centre and enjoying open agricultural land to the rear.

Seldom do opportunities come on to the market in such a private, yet convenient position and we recommend early viewing to appreciate the full potential.

PROPERTY DESCRIPTION

The site occupies a private position situated off a private drive at the head of Abergele High Street. Access is over a small bridge spanning the Afon Gele with the land situated at an elevated position with farm land to the rear.

The development is situated on the site Plas Isaf, a well proportioned period house that has now fallen into disrepair but which could be restored as an alternative to development. Purchasers should rely on their own investigations regarding any possibilities of repairing any parts of the house as an alternative to demolition and development.

Planning permission has been obtained for the demolition of Plas Isaf and for the replacement by 3 executive houses comprising 2 four bedroomed properties of approximately 2,400 square foot and one 3 bedroomed property of approximately 1,200 square foot.

Details of the planning permission and floor layout plans are available by email only on request or can be inspected during normal working hours in the Abergele Office.

PLANNING PERMISSION

The planning consent granted on the land is Ref: 0/50292. Alternatively there are possibilities (but this is for any purchasers to rely on their own investigations) of undertaking a scheme of repair

to Plas Isaf house with a reduced development scheme, subject to local planning authority consent. We would therefore recommend that interested parties undertake their own independent enquiries to establish alternative forms of development for the site.

Conwy Planning Department can be contacted on 01492 574000

SERVICES

We understand that mains water and electricity services have previously been connected to the site together with mains drainage and natural gas supplies. Services have not been tested and purchasers should satisfy themselves regarding these matters.

METHOD OF SALE
