ABOUT THE DEVELOPER

We develop, design, sell, manage.

JaeVee Home's lifecycle investment model of developing, selling, and managing property is revolutionising the way people invest. We are unlike any other property company being that we are investors and landlords ourselves. We are the creator, developer, retailer, and operator of unique market-leading property investment strategies.

We put the end-user at the heart of every decision we make, creating lifestyles and homes that give us a competitive edge. Nobody else can provide such a revolutionary way to invest in property like us. We Develop. We Sell. We Manage. We are committed to you and your investment. There are no other agents, no other developers, no other managers. None of the end-user focus is ever lost making the advantages all yours.

A COMPLETE REVOLUTIONARY APPROACH

We understand the need to create lifestyles and focusing on people, rather than the numbers. We place emphasis on what we need to deliver to get the end-user to value the accommodation as much as we do.

TOTAL CONTROL

We develop sites and then manage them, giving us total control over the entire property process. Typically, agents, developers, and letting companies are all part of the exchange. We swap confusion for revolution by changing the way people view property. We cut out the middleman and make the end-user our primary focus when purchasing.
