MAURITIUS

EDITO

Founded in 2007, the MJ Développement group operates in France and Mauritius by building high-quality real estate properties. As our approach is to find the best locations for your life projects and real estate investments, we have opened the doors to Mauritius where investment opportunities are unique... to live, invest or retire on that beautiful island.

LIVING
in Mauritius

MODERN AND RELIABLE INFRASTRUCTURE

Mauritius is a modern country with a quality infrastructure in line with European standards. Its political and economic stability and steady positive growth have enabled the country to benefit from the assistance of major international funding organisations such as the World Bank, the African Development Bank, the International Monetary Fund and the French Development Agency.

The country is currently pursuing the development and maintenance of its infrastructure.

ACCESSIBILITY AND MOBILITY

Mauritius has a modern and substantial airport situated in Plaine Magnien, in the south-east of the country, connecting the island to the rest of the world. The Metro Express service connects Port Louis, the capital city, with Rose Hill and Quatre Bornes, two major towns of the lower Plaine Wilhems and soon Curepipe as well.

EDUCATION

The Mauritian government has set itself the objective of making Mauritius a reference in the field of education and positioning the country as an education hub.

Mauritian education includes a well-developed network of public primary and secondary schools. A large number of public schools and 6 major university campuses (Humanities and Social Sciences, Natural Sciences, Engineering and Technology Systems (CITS), the Center for Innovative Lifelong Learning and the Center for Biomedical and Biomaterials Research) are also available. These and other sectors are the future economic and commercial pillars of the island.

THE EDUCATIONAL VILLAGE

The MEDINE group created a major university project on the island in 2015 which is an international university campus located on the west of the island. This campus has year-round partnerships with 25 prestigious European higher education establishments: Vatel, ESSEC, ESCP Europe, Sup Info, ENSA de Nantes (Architecture), Université Paris Dauphine, ASSAS, Descartes... allowing students to obtain BA (1) and MBA (2) degrees.

*These conversions are indicative and variable.

(1) Bachelor of Arts

(2) Master of Business Administration

HEALTH

Mauritius has a healthy climate and there is no risk of malaria or yellow fever.

The health care system in Mauritius is good. Practitioners on the island are trained, competent and organised in multidisciplinary medical practices as is also the case in Europe.

There are many pharmacies on the island, with duty pharmacies open on Sundays.

The network of private clinics is excellent. From general clinics such as the Darné clinic (subsidised by the C.F.E.) to the Grand Bay clinic, not forgetting the dental and cardiological clinics, all meet the standards set in this respect.

5 regional public hospitals are spread throughout the island. The hospitals offer a quality of care identical to that offered in mainland France. The nearest French university hospital in the north of Reunion Island, in Saint Denis, is a 45-minute flight away.

Mostly private, these dental establishments offer general and specialized care.

INVESTING
in Mauritius

TAXATION

RESIDENT TAX STATUS

By investing in real estate in Mauritius as part of a project labelled PDS by the EDB (Economic Development Board, ex BOI), you become a Mauritian resident*. Moreover, if you decide at any time to stay more than 183 days per year in your Mauritian residence, you will become a Mauritian tax resident without any specific requirements.

*Provided you invest in a property worth more than \$375 000

URBAN TAXATION IN MAURITIUS

In Mauritius, there is no property tax, housing tax or CSG. The only tax applied to goods is due upon purchase. This is a government tax that amounts to 5% of the promoter price.

A VERY ADVANTAGEOUS NON-DOUBLE TAXATION AGREEMENT

Due to its non-double taxation agreements signed between Mauritius and more than forty States (including in particular France, Luxembourg, India, the United Kingdom, the Republic of Malta, the Principality of Monaco, the United Arab Emirates, and more recently Germany, Sweden or South Africa as well as several States on the African continent) Mauritius benefits from a more advantageous tax climate.

SUCCESSION TAXATION

There are no inheritance taxes in Mauritius. In case of inheritance, the property will be part of the estate assets abroad. No text in the agreement mentions successions. In practice, a person inherits property real estate following the death of his parents. The property is immediately transmitted once the death certificate is received by the notary in Mauritius. The property will be part of the taxable overseas estate.
