

A photograph of a modern, multi-story apartment building with balconies, overlaid with a blue tint. The building features a mix of brick and light-colored panels. The balconies have glass railings. The sky is clear and blue. Some green leaves are visible in the top right corner.

TRUWELAND

SIMPLY REALTY

THE GROUP

#The_Vision

The company's vision is to combine innovation and technology, with the aim of meeting the evolving needs of the Real Estate industry in Greece.

The wide range of professional services according to international standards of property management, planning and market's research, results in a complete, clear and enjoyable experience for prospective clients.

Trueland's dynamic organization signals a modern future in the field of Real Estate.

It constantly strives to bring the best results for all those who trust the company, regardless of the constant fluctuations of the market. Its main activity is the offering of integrated Real Estate management and upgrading services. Offering an advanced and innovative approach and using new and progressive methods of promotion, it achieves the desired results without forgetting the importance of personal contact with each owner-buyer.

Trueland was founded by experienced executives who have been active for years in the field of real estate. Its offices are located in the historical center of Athens and are staffed by professionals with years of knowledge and expertise, who are able to offer high standard services. Our team adapts to the needs of the modern era and bases its work on innovative ways of organization and technology, promoting the properties it undertakes, whether residential or commercial, in the best and most efficient way. The professionals who make it up have developed and mediated over the years in many real estate purchase-sale-rental projects with great success and are willing to help you turn an entirely tedious process into an easy and pleasant experience, based primarily on relationships appreciation and trust.
