Description

Visioli Real Estate presents Red Lion Lane. This charming period home is ideal for couples or professionals seeking a property full of warmth and character within easy reach of town life and transport links. With a welcoming layout and private garden, it offers a wonderful balance of charm and convenience.

This Grade II listed cottage is filled with period charm and has been carefully updated to suit modern living. The spacious living and dining room is the heart of the home, complete with a character fireplace, exposed beams and plenty of natural light. The re-fitted kitchen has a clean and practical layout with integrated appliances, creating a bright space that feels both homely and functional. The bathroom stands out with its vaulted ceiling and claw foot bath, giving it a sense of style and relaxation. Upstairs, two double bedrooms continue the theme of character, with exposed floorboards and beams adding warmth and individuality. Outside, the garden is designed with tiers, including a lawned section that is easy to enjoy and maintain, making it well suited to those who appreciate private outdoor space without too much upkeep. A courtyard area leads to a large shed or workshop, which provides useful storage or the option for hobbies, linking nicely to the lifestyle appeal of the property for those working from home. The enclosed nature of the garden makes it easy to relax, and the period style of the house complements the outside space in a natural way.
