SHARED OWNERSHIP & DO I QUALIFY?

Shared Ownership offers an affordable way to buy your own home. You purchase a share of the property (typically between 25% and 75%) and pay rent on the remaining share. This allows you to buy with a smaller deposit and mortgage than purchasing outright. Over time, you can increase your share in the property through a process known as 'staircasing' until you own 100% of your home.

This scheme is ideal for first-time buyers, key workers, or those looking to get back on the property ladder. It offers flexibility and security while making homeownership more achievable.

All of our homes are built to a high standard and come with modern specifications, offroad parking, and private gardens,giving you the space, comfort and quality you deserve.
