Resin path continues all the way around the side of the house from the front driveway to the rear. Large patio area offers complete privacy from any neighbouring houses and positioned to take full advantage of the sunny aspect. Steps lead to a raised area which provides additional patio and seating areas also with resin finish and artificial lawn ensures fairly low maintenance throughout the year. Additional drystone wall providing some raised borders. The side of the property has comfortable space for parking a vehicle behind timber gates, but it should also be noted there is additional width of 7ft approx. or more to further extend the width of the enclosed area which provides future potential for a garage if one was required. Either way, there is ample driveway and on street parking for multiple vehicles in what is a very secluded and quiet part of the development.

GENERAL

The property benefits from a recent extension which significantly increases the size of the original property to the side and rear. A completely new roof has been put onto the whole house to ensure a perfect match between the older property and new extension. The accommodation is all on one level making it perfect for buyers requiring one level living including the patio area to the rear. However, the raised part of the garden does have some stairs leading to it. Loft access with pull down ladders providing extensive additional storage if required. Freehold.
