GUIDE PRICE £185,000

Dating from the late 1700s, this mid-terrace, Grade II Listed town house offers much more space than one might expect from a passing glance, as its modest frontage belies a rather 'Tardis-like' interior. The property almost certainly started life as a shop with accommodation above, but over the years it has been modified and extended to provide over 940sq.ft of living space. The house benefits from gas central heating, but of particular note is the fact that it comes with off-street parking for one car at the rear.

The accommodation briefly comprises entrance lobby, sitting room and dining area, kitchen, first floor landing, two double bedrooms and a house bathroom. A staircase from the main bedroom leads up to an occasional third bedroom.

The plot stretches all the way back to Church Hill, where is off road parking, adjacent to St. Leonard & St. Mary's Church. Immediately behind the house is a stone flagged patio garden, with path to the back door.
