There are a few areas of the town that are particularly attractive to potential purchasers. To be on this side of the valley with the views and sunlight to the south is a great start. If you mix in an efficient family home, ideally located for schools and the town but still in a tucked away position, it's got to be high up on a lot of buyers' lists. Built in 2014, the houses here are relatively new with high insulation levels and modern day layouts and completed to a great standard and this has been maintained by the current owners. The house works equally well for a family or a couple with light rooms, spacious living areas and a flexible 4 bedroom layout.

The house is over 3 levels with the lower ground level deserving of an early mention. In addition to the off-road parking, there's twin garage doors to large, open garage spaces with light and power, ideal for a multitude of uses and could even be converted to further living space (subject to permissions) but that's not all! An additional space could be used for storage or a workshop so essentially there's the equivalent of 3 garages underneath the main house. This could be a gym, a home office, a cinema room or even an annexe should it be required. There's external steps up to the front door where a gorgeous balcony can be enjoyed in the evening summer sun and take in the wonderful views. Once inside, there's a welcoming hallway with a useful WC and doors take you to the living room which has doors to both the garden and balcony and has southerly views to the front and the garden to the rear. There's a large kitchen/dining/family room too which is a great social space and then a utility room to the rear with door to the rear garden. On the top floor are the 4 bedrooms. The master bedroom and 2nd bedroom have built in storage and there is a lovely ensuite shower room to the master, the further 3 bedrooms have the use of the family bathroom. The view has already been mentioned but the higher you rise, the more of the glorious countryside is on offer.

At the rear (accessed from the pathways at the side) is a beautifully presented garden, now mainly level (a lot of work went into creating a useable space here). There are seating areas, lawn and planted beds. It's a private garden and a great place to relax without being too much work. In addition there is a handy gated storage area to the side.

Please see the floorplan for room sizes.
