# Why Birmingham?

**"Birmingham has a world-class talent pool thanks to its internationally-renowned universities and research facilities. Continued investment in infrastructure such as HS2 and the metro, investment at Birmingham international airport, and improvements in connectivity realised through the 5G test-bed, ensures the Midlands growth story will be attractive to future generations of talent!"**

*Matthew Hammond, PWC*

Originally the 'workshop of the world' during the industrial revolution, it's always been at the forefront of innovation and the birthplace of iconic brands such as Cadbury's, Lloyd's Bank and HP Sauce. In more recent years, the city has gained recognition for its financial, tech and business hubs, with major companies such as Goldman Sachs moving in to Colmore Row, HMRC creating a regional hub at 3 Arena Central and HSBC Bank setting up headquarters in the city instead of London – a growing trend among blue-chip employers.

PWC's move to One Chamberlain was its largest single office investment ever made outside of London and BT announced in early 2020 it was to move 4,000 workers to Snow Hill, quintupling the amount of staff it already had in Birmingham and making it the city's biggest employer.

With the highest inward investment (apart from London) in the UK improving connectivity and infrastructure, with 37% of the population under the age of 25, and the highest percentage of graduate retention in the country, the city is being reborn as it continues to reposition itself nationally and internationally as a major regional centre at the heart of the UK.

With new residential, commercial and realm development the city has been re-energised as a popular place to live and work.

Four guiding principles are at the heart of the plan – to create a green city where nature is integral; an equitable city where communities have equal opportunities; a liveable city that's people focused and a distinctive city that takes pride in the individual identities of its communities.

## COMMONWEALTH GAMES 2022

### Regeneration and tourism

In July 2022, Birmingham stepped onto the world stage as hosts of the Commonwealth Games. Bringing in £778m worth of investment it will not only provide improvements to local infrastructure and a legacy springboard for future investment but will add an extra 1 million visitors to the city's tourism economy (42.8 million visitors per year) with a subsequent spend of £7.1 billion.

## HS2 - ECONOMIC BOOST AND JOB CREATION

### Faster links to London

Improved access to London will follow with HS2, which will reduce the direct train link to London from 1 hour 24 minutes, to just 52 minutes by 2029. HS2 is projected to boost the local economy by an estimated £1.5bn and bring 22,000 jobs to the region.

## REACH 90% OF THE UK IN 4 HOURS

Over 6,000 tech companies are registered, and along with the support of Innovation Birmingham, a dedicated 100,000 sq ft campus for the digital and tech community, the industry is beginning to rival the proliferation of financial and professional service providers in the city. In addition, a large scale 5G rollout is currently being advanced with a target to reach net carbon zero by 2030.

# The educated choice.

**RANKED SECOND IN THE UK AS A HUB FOR TECH BUSINESSES, IT'S JUST ONE SECTOR THAT'S BEING FUELLED BY A POOL OF EMPLOYMENT HUNGRY GRADUATES.**

Recently voted as the most investable city in the UK and with a host of employers in the technology, innovation, medtech and life sciences sectors, Birmingham was also identified as the only 'established' fintech cluster outside London in the 2021 'Kalifa Review of UK Fin Tech', commissioned by the Government.

With eight major universities and research institutions in the region producing more than 58,000 graduates, supported by a further 22 universities within an hour's drive providing an additional 385,000 graduates, Birmingham has become a major draw for talent who wish to remain post-graduation and contribute to the dynamic progression of this exciting city.

Education has always played a part in the history of Birmingham and the city is home to the King Edward VII Foundation, a charitable institution that operates the independent King Edward's School, ranked as one of the top 10 International Baccalaureate schools in the UK and amongst the top 25 in the world.

# Regeneration for a new generation.

Many areas of the city are undergoing transformation to adapt to the ever-growing influx of world-class employers. Driving growth and regeneration, Snow Hill is the subject of a 20 year masterplan that will enhance the area's key assets, including a £50m overhaul of Snow Hill station. Included within the masterplan, the commercial district of Colmore Row, already home to Goldman Sachs, will significantly contribute to the city's economy with professional services, retail and the hospitality sectors employing over 35,000 people. HS2 has also established its construction headquarters here, with 1,500 employees.

With unprecedented global investment allied to forecasts of 4.9% pa growth in residential property values over 5 years, and growing rental values underpinned by a young, rapidly expanding population expected to grow by 400,000 by 2043, Birmingham is leading the way as the UK's no. 1 investment hotspot. Boulevard presents the opportunity to share in the success of the city's future, transformed from its manufacturing foundations to a safe, welcoming and vibrant destination for businesses, residents and visitors.
