OUTSIDE OUR HOMES

Every part of our Oak Meadows' site has been carefully curated with our residents in mind. From the reclaimed oak wood, taken from the early days of the development, which has been used to create eye-catching Acorn details throughout the site, to the character areas featuring landmarks and points of interest to ensure you can always find your way, no two areas are the same.

Our landscape architects have worked tirelessly to create safe and impressive spaces, reserved for our residents. A well-lit road runs around the site, whilst courtyards and pedestrian areas feature a combination of wall-lighting and low level bollard lighting.

Outside homes, the properties have fully turfed front and rear gardens, and either hedge planting, shrub planting or timber sleeper fencing at the front of each residence.

Future-proofing our homes is a priority at Oak Meadows, which is why all of our homes feature a mixture of block and paved gravel driveways which are pre-wired for car EV charging points.

Private outdoor space has been prioritised and roof terraces are featured within the majority of our homes. All of the terraces are built with composite cladding and decking, and are architecturally designed so that they overlook points of interest and the tree canopy which surrounds the site.

The distinctive character of the site with its surrounding natural elements, coupled with the exclusivity of only a select number of homes being built, brings with it a sense of security, community and freedom around the development.

INSIDE OUR HOMES

When you step inside an Oak Meadows home, you'll instantly feel the impact of natural luxury.

Throughout this development, the green landscape compliments all of our designs. Whether that's the textural influences in our interior-design led kitchens and bathrooms, or our oversized windows, sliding doors and high ceilings designed to bring in additional light, greenery and welcome space.

Premium, triple-glazed, aluminium and timber Velfac windows and external doors come as standard in every one of our properties and a number of home types also boast floor to ceiling windows and skylights.

Our homes need to be more versatile than ever before, so we've incorporated either a separate study or a dedicated space for a workstation, in each of our designs.

All of our home options have been created for Oak Meadows by our dedicated interior designer. This takes away the tough-decision making and leaves you assured that all of your bathroom, kitchen and decor selections will blend seamlessly, creating a cohesive contemporary setting for you to move straight into.

Buyers will be able to select their own contemporary home flooring, tiling and decorative features, alongside any of our curated paint colours that they wish to be used throughout the property.

In addition to this, our fitted kitchens come with integrated Bosch appliances, whilst our bathrooms are fitted with high quality Porcelanosa products.
