### DESCRIPTION

This is an exciting custom build opportunity, offering a wide variety of external and internal options, dependent on personal requirements. Cleave Wood is small collection of contemporary designed properties, accessed via a discreet and private road, and then entered through electric gates, the location will provide a private, tranquil, and secure living environment.

There will be five 'plots' available to choose from and the vendors are encouraging early reservations. Each property will have outdoor garden space, off road parking for at least two vehicles. Garages and car ports are not in the 'standard' build but can also be included (subject to price agreed)

Prices start from £599,950 for the detached four bedroom home with an office, the rooms can be specified for alternative use and finished accordingly. The design is the illustrated property in our sales particulars but without the carport and upper terrace, other designs will be priced accordingly to specification and extras chosen by buyers.

The whole development area sits within 4 acres of natural woodland. All communal areas including the woodland and stream will be maintained throughout the year, the service charge tbc.

So, what is custom build? Essentially this is a way of purchasing a new property that provides you with more input into the design, layout, and finish from the very beginning. Whilst the outcome is identical, the purchase of a custom-built property is split into two transactions, which usually happen simultaneously, firstly you choose the location for your property, in this case the land plot, then agree the specification of your new home with Dan-Wood.
