A roomy kitchen with soft closing units and Quartz work surfaces offers the perfect setting for culinary exploration with enough space to table guests whilst transitioning between host and entertainer. The engineered oak flooring is perfect for easy cleaning offering a carefree experience for accidental spills and muddy paws; it's laid throughout most of the high traffic areas, with limestone tiles offer both light and peace of mind for easy cleaning in the bathrooms and utility and carpets throughout the bedrooms.

Solar panels offer an ecofriendly approach for energy and being owned outright, they offer benefits like retrofitting of battery storage for more off grid living or cheaper charging of electric vehicles during daylight hours, they also provide a quarterly income. The central heating is run off a conventional oil-fired central heating system via radiators and heat is maintained by sustainable timber double glazed windows and doors coated with aluminium to reduce their maintenance.
