It is approached through a main gated secure access onto a shared driveway which in turn leads to a private driveway to the front of the property, where there is parking in front of the double garage. The garage, which is detached, has two electrically operated roller doors, power and lighting, and a charging Point for an electric vehicle. NB: It would be very possible to adapt the garage into a home office or studio space if desired, subject to any necessary permissions. The garden, which is mostly level, surrounds the house on three sides, and is unusually large for any property this close to town. At present, the garden has been seeded for grass only, but there is huge potential for landscaping, and it would certainly accommodate a swimming pool or other outbuildings if desired, subject to any necessary consents. A patio at the back of the house is positioned with the views in mind. A gate at the bottom of the garden leads through to the ancient woodland and to the front of the property there is access to the old railway line. NB: We understand that the four properties on the development jointly own and have access to these shared areas, further details of which can be obtained from our office.
