LOCATION

St. Austins Grove is a highly favoured location and boasts a number of character properties, a number of which were designed by the famous architect John Sidney Brocklesby. Beeston Common lies just to the South, an area designated as Specific Scientific Interest with pathways leading to the Town centre. The beach is also within walking distance. Access to the plot is from St. Austins Grove itself and there is a further pedestrian (only) access to the rear of the plot from Curtis Lane.

EXISTING PERMISSION

Planning permission was obtained in 2015 for the erection of a detached bungalow; the design of which provides an open plan Lounge/Kitchen/Dining area, three Bedrooms, Cloakroom and Bathroom. Applicants may wish to re-submit alternative plans but will need to be aware that there is a Covenant on the plot dating back to 1988 restricting any subsequent building to a single storey private dwellinghouse.

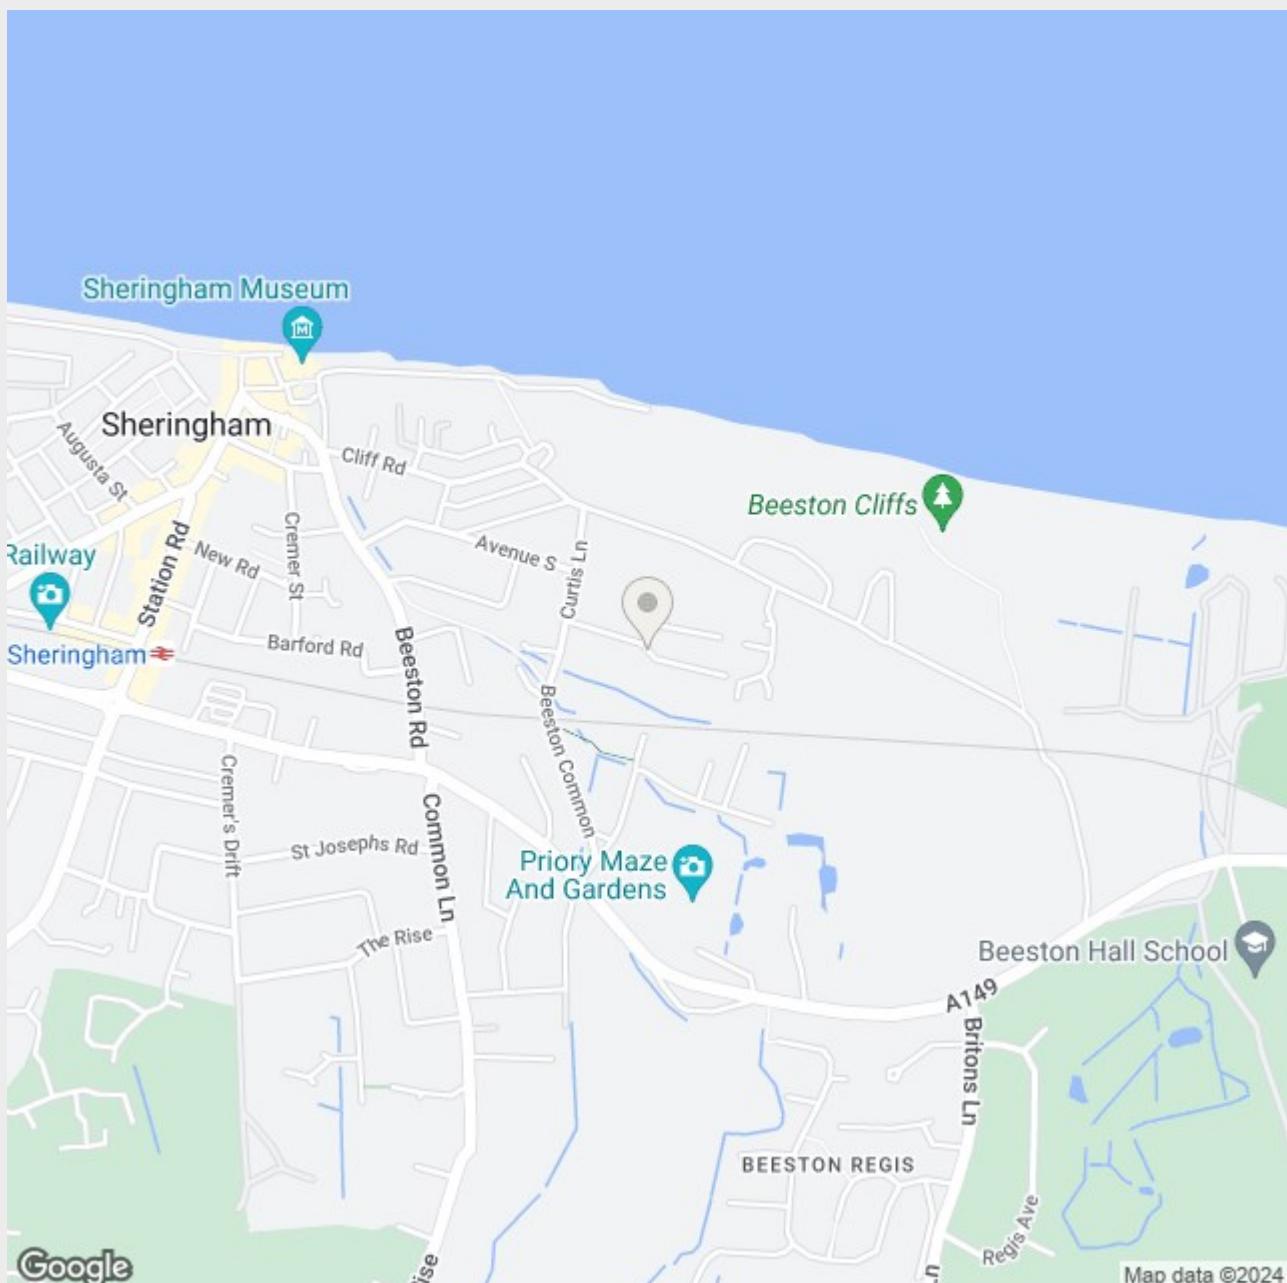

AGENTS NOTE

The land is freehold and we understand that, subject to the relevant application, all main services are available.

VIEWING

For safety reasons, the site is currently secure and access to the land is not permitted without prior appointment. However, it may be viewed from the boundary fencing without prior permission.
