- Substantial historic 4/5 bed farmhouse for improvement

*A former Cornwall Council farmstead with outbuildings and productive land wrapped around a large, old Grade II Listed farmhouse on the rural fringe of Port Isaac.*

### The Property

The property is centred on a very old and characterful farmhouse that in its listing is suggested to possibly date back to the early/mid-18<sup>th</sup> century. The front door opens onto a spacious hallway, where a slate flagstone floor extends into a dining room, the inner hall and the rear lobby. In addition, the ground floor comprises a lounge with Inglenook style fireplace, a generous kitchen, a utility/wc and a boot room. A turning staircase ascends from the inner hall to the four bedrooms, bathroom and shower room/wc on the first floor and a further full width staircase continuing onto a huge attic room.

Whilst some improvements have been carried out there remains plenty of scope for further repair and refurbishment with the potential to create a very special, highly individual home. The sellers have commissioned a Heritage Statement which contains further detailed information about the property, its history and its local significance.

**Note:** A Heritage Survey is available on request.

## Outbuildings

Externally there is a wide range of traditional and modern outbuildings offering a huge range of opportunities, subject to planning.

A range of single storey barns are attached to the house, whilst the most striking of the barns is a detached two storey barn of around 132sqm with views toward the sea from the upper floor. More recent buildings and barns provide cover for livestock and machinery and there is excellent access onto the public highway.

## The Land

Much of the land in and around the house, barns and yard has become overgrown, yet the two fields amounting to almost 7 acres have been used in recent times for grazing and hay production. It will be a condition of the sale that the new owners are to fence the section of the field to the south and east through points A, B & C (shown on the attached plan) to Countryside Stewardship standard within three months of completion of purchase and to maintain in perpetuity. The new owners will be required to cut off the water in the location marked with a blue X on that plan.

**Services:** Mains electricity, mains water and private drainage. None of these services have been tested and therefore no guarantees can be given. Cornwall Council reserve the right to lay any services through the property to benefit their retained land. **NB.** The purchaser will be required to disconnect all water that supplies any troughs.

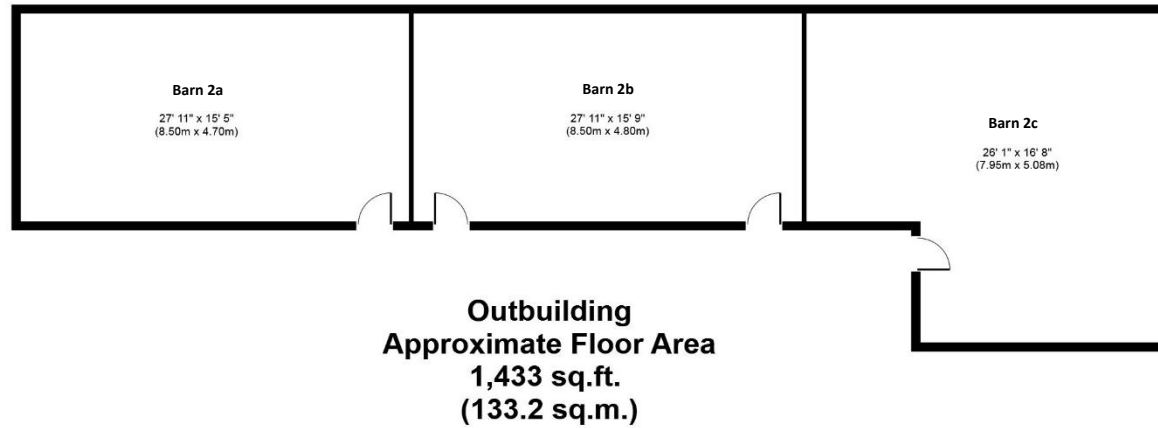

**Council Tax Band:** C    **EPC:** G19

**Wayleaves, Easements & Rights of Way:** The sale will be subject to and with the benefit of all existing wayleaves, easements and rights of way as may exist. There is a public footpath running through the field to the rear of the house and across the neighbouring field.
