To The Outside

The property is accessed off Harrogate Road up a concrete driveway which wraps around to the front of the property, there is an extended stone flagged drive leading to the garage. The front garden is mainly laid to lawn and includes a stone ha-ha wall, raised stone flower beds, and a herbaceous border.

The private rear garden which is surrounded by mature conifer hedges, can be accessed either by a side gate with a tiled path between the garage and the property, or a gate to the right side of the property which has a stone flagged path. Both paths lead to the extensive stone flagged patio area which overlooks the lawned area which has been shaped to allow for multiple flower beds. Encompassing the lawned area are two stone flagged paths running parallel to each other, both leading to the end of the garden where there is a raised flagged seating area which is positioned next to a rockery with a previously running water feature, pond and concrete bridge onto the lawned area.

The double length garage houses the gas boiler, has power and light connected, an up and over door, and a long uPVC double glazed window to the side. Above the garage is a first floor annex offering flexible multi use accommodation which is accessed to the rear of the garage via a metal staircase, this space includes two radiators, uPVC double glazed windows, and a shower room featuring a WC, a wall mounted wash hand basin, and a shower with ceramic tiled splash back surround.

It is the opinion of the writer that the annex could easily be converted and incorporated into the primary living accommodation.

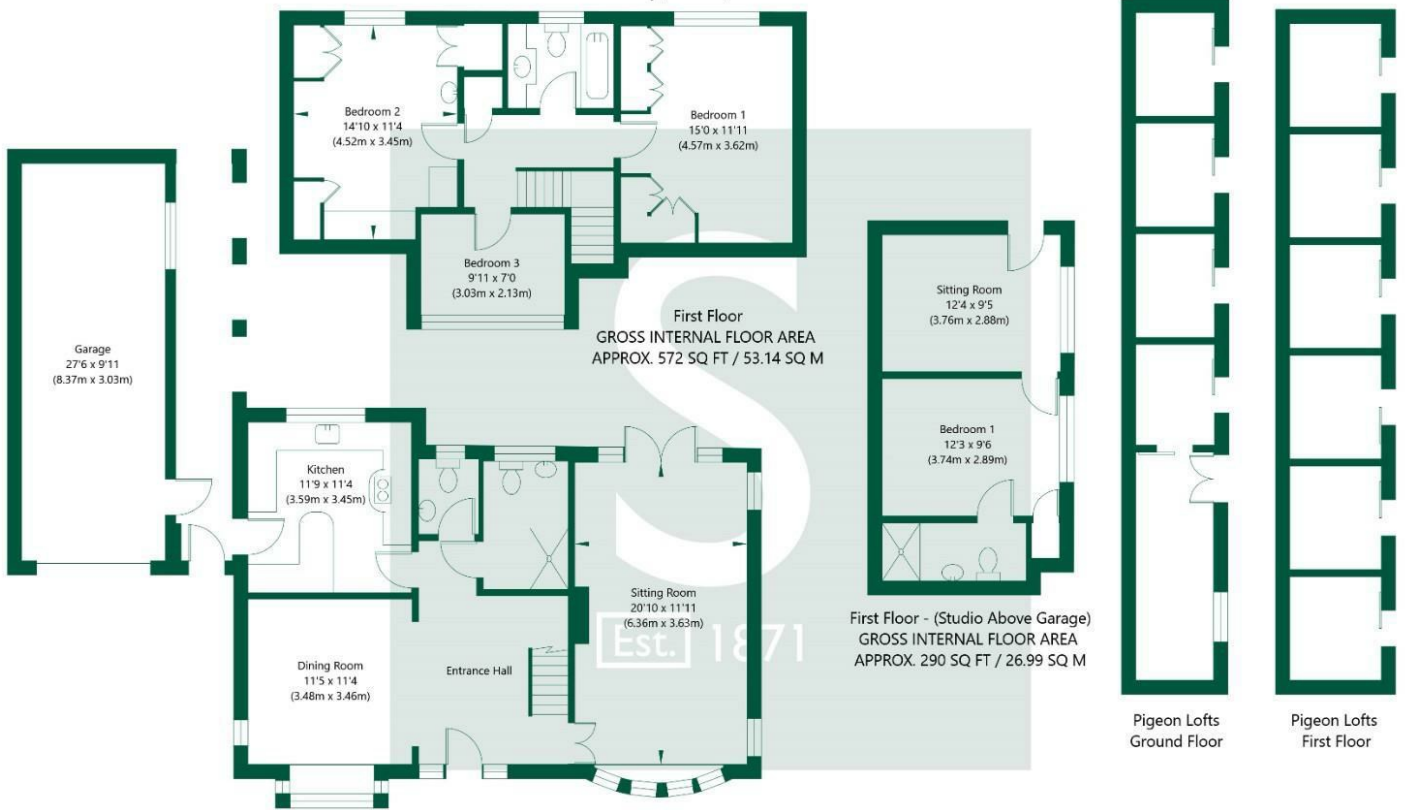

One of the unusual features of this property is the two storey pigeon loft which includes 11 separate units. The second floor of the pigeon loft is accessed via the same metal staircase and has an open balcony across the full length.
