Gardens and Paddock

Lawned gardens surround the property on all sides and there is an external timber store, external cold water tap and lighting. On the western side there is a black lime stone terrace where there are two ornamental olive trees set within sleeper clad planters and the lawns slope away from this area to a post and rail fence beyond which there are grass paddocks bounded by a combination of established stone walls and post and rail fencing. The west facing paddock contains a fresh water fed natural pond which is a haven for wading birds and wildlife and there is a landing deck and outflow to a natural stream. The paddocks also have a natural fed water trough.
