The Property

This home has been designed and recently extended by the current owners, creating a contemporary style family home with far-reaching, rural views of the neighbouring fields. The clever design allows plenty of natural light in each room- with various windows and roof lanterns making the most of the south-westerly aspect. The home is built of sustainable materials, has an air source heat pump and an electric vehicle charging point installed and benefits of under floor heating on the ground floor.

The entrance hall opens through to the main living space which is an open plan lounge and dining room with full-length, sliding doors opening to the rear garden and roof lanterns allowing a great natural light. There are exposed beams throughout this space with solid oak and tiled flooring distinguishing the areas. The kitchen space is separated by a cleverly designed half wall and breakfast bar which creates a flow between the spaces. There is a separate utility room beyond the kitchen and a downstairs cloakroom on this floor.

The second floor was an extension by the current owners, creating two further bedrooms which are currently well designed as children's bedrooms, including contemporary style sunken beds.

Outside

At the front of the property is undercover, off street parking for two cars and an electric charging point. The rear garden is laid to lawn, south-west facing and with views over neighbouring fields.
