## Description

Valley Farmhouse is a Grade II Listed house believed to date from the 16th Century that is predominantly of timber framed construction with rendered elevations under a tiled roof. It has been extended and now offers spacious accommodation over 3300 sq feet. Of particular note are the drawing room and sitting room which have exposed beams and studwork as well as inglenook fireplaces that are home to wood burning stoves.

A front door provides access to the hallway, off which is the drawing room and also the sitting room. From here there are stairs to the first floor landing, access to the inner hallway and also to the dining room. This 18'5" x 15' room is dual aspect and has views over the front drive and garden. Off the hallway is a cloak cupboard, cloakroom with WC, an exterior door and access to the study, off which is a spacious utility room. Also off the hallway is the kitchen which is fitted with solid wood high and low level units and has an integrated dishwasher and fridge. There is space for an electric range cooker with bottled gas hob above. From the kitchen is access to the garden room which is of UPVC construction and enjoys views over the rear garden.

From the sitting room, stairs rise to the first floor landing that has views over the historic timber framed Suffolk barn. From this, doors lead off to the five bedrooms, all of which can be used as doubles. The principal bedroom, which has impressive exposed timbers, has an en-suite shower room. In addition is a bathroom. A hatch from the landing has a pull down ladder to the attic space which makes for excellent storage.

## Outside

The property is approached from the road by a private drive that serves Valley Farm, the adjacent dwellings and a mechanics workshop. The main driveway for the farmhouse spurs off to the right and is bordered on both sides by mature trees and lawns. It leads to an extensive front shingle parking area adjacent to which is the cottage. Here there is also a garage. To the rear of the farmhouse is a further large parking area and superb timber framed Suffolk barn which is weatherboarded and has a clay pan tiled roof. This has scope for a number of uses such as a party barn or home office but also just as storage/garaging.

Beyond the Suffolk barn are a range of useful cart lodges, three of which have been constructed in recent years. In addition is a further barn. The grounds surround the house and as well as the more formal areas that are laid to grass and contain mature trees, are flower beds and a pond. Beyond this is woodland. In all, the grounds extend to approximately 12.8 acres.

Within the gardens is an annexe known as The Cottage. This is a mobile home that has been in situ since the mid 1990s. It benefits from a kitchen, sitting/dining room, two bedrooms and a shower room. It is served by its own central heating system. This was originally put in place for a dependent family member and was then used for holiday lets.
