WELCOME TO GLASGOW'S WEST END

Harbour View is a stunning new development of 48 units of two-bedroom apartments over two buildings. Set in the city's vibrant west end and featuring a modern design, Harbour View is brought to the market by developer Nixon Blue.

HARBOUR VIEW

Designed by NIXON architects, Harbour View will offer modern living and will achieve Gold Hybrid Standard in energy performance and sustainability helping you to reduce your monthly heating bills.

A combination of renewable energy sources will be used to make your home energy efficient. Attractive communal spaces and modern entry to maintain building security will be looked after by the appointed factor.

Set across two buildings that occupy a prominent position on the edge of the popular Partick district, within Glasgow's West End. The buildings are surrounded by landscaped walkways, cycle paths and gardens.

A PLACE TO LIVE

Owning a home at Harbour View is all about doing it your way and creating a space that defines lives and breathes the way you want.

We have collaborated with leading kitchen provider Porcelanosa to create stunning designer kitchens from their exclusive range, and buyers will have the choice of colours and finishes. Our team will be on hand to help you make the right choice and to walk you through the process every step of the way.

A HOME FOR YOU

Contemporary living spaces serve to complement modern living with Nixon Blue. We have a number of modern developments in the city and Harbour View will be built to an exceptional standard.

Each of the apartments are designed with welcoming neutral decor, ready for you to add your style and personality.

Personalising your home can be made easier with the help of our dedicated Customer Liaison Manager, who can discuss a choice of upgrades to personalise your new home.

Nixon Blue is a property development company which places people and place at the heart of everything we do.

We look for unused sites and strive to maximise the potential of places, building new homes and creating a sense of place to the new environments.

We work with teams of highly skilled consultants in the early design phase from our architects to engineers and landscape gardens to ensure that we create as well as build. Our expertise also offers a wide range of consultancy services From design services to straightforward planning and building warrant services for private projects to full land and site viability consultancy for larger residential sites. We have specific expertise in town and city centre brownfield sites where an innovative, creative approach is essential in delivering a successful outcome.
