Mains water, gas and electricity are believed to be connected.

The property is connected to a septic tank of the adjoining truck yard site. There is a septic tank in the garden which the property was previously connected to. Investigations into this should be conducted by a buyer on the condition and suitability. The truck yard site is willing to allow a new purchaser use of their septic tank for 6 months after the completion date for the existing connection only. Planning reference number: S.22/0912/FUL via SDC planning website.

Council Tax Band: C (£2037.77 payable).

Broadband is not currently at the property (please enquiry as to what broadband would be available).

AGENTS NOTE TWO

No uplift clause will apply to this property if the existing planning permission is utilised.

There is an uplift clause which will come into effect if planning permission is granted for three or more new properties on this site. The uplift charge will be for 50% of the value for each new property.

The current owners had planning permission refused for two semi-detached properties in the garden but believe this could be a possibility for future purchases. If planning permission were to be obtained for two properties in the garden, the uplift clause would not come into effect. It would only come into effect if planning permission were to be obtained for three or more new properties.
