We have pleasure in offering to the market this charming, archetypal, detached period cottage which offers a wealth of character and features, occupying a delightful, established plot with a westerly facing rear garden and having the added bonus of a detached double garage not often found in properties of its style.

The property is located in a central position, tucked away on a small lane, and is in within walking distance of the heart of the village.

Understand to have formerly been two cottages, the property was later converted into one individual home which offers a great deal of versatility, ideal for single or professional couples or potentially those downsizing from larger dwellings. The property could also suit those with an older child, the first floor accommodation being split with two separate staircases rising to bedrooms at either end of the property.

Internally the cottage offers a wealth of features with many rooms having heavily beamed ceilings and cottage latch doors while the main sitting room has a solid fuel stove, attractive ash and oak window sills and bespoke ash staircase.

The accommodations lies in the region of 1,450 sq.ft. providing a sitting room, well proportioned L shaped breakfast kitchen with useful utility and ground floor cloak room off, a hardwood framed conservatory offering a delightful aspect out into the rear garden and a ground floor bathroom/cloaks leading off an initial central hallway. The first floor accommodation is split and accessed by two separate staircases leading to two/three bedrooms in the eaves with the master having a walk through dressing/cloak room and further potential bedroom off.

As well as the internal accommodation the property occupies a pleasant and deceptive plot with the main garden lying to the westerly side and having a relatively good degree of privacy. An initial paved terrace leads up onto a central lawn with well stocked perimeter borders with a range of established shrubs. A further pleasant walled and fenced courtyard style garden lies to the north side of the

cottage and provides an attractive rose garden and additional seating areas.

The property does offer a small parking space and benefits from a detached double garage which could provide secure parking or workshop space.

Although long lapsed the property did have planning permission granted in 2005 for a rear and side extension. Although planning would have to be resubmitted it does suggest that there is possible onward potential to increase the accommodation further.
