This extended bay-fronted home has been well cared for and has undergone various improvements over the last 10 years. The property was extended to the rear in 2019 and also benefits from an impressive purpose-built studio, located at the foot of the garden.

The accommodation briefly comprises an entrance hall with a vaulted ceiling, offering space for coats and footwear, understair storage cupboards and access to a cloakroom W.C. There is a bay-fronted sitting room with a feature gas fireplace. Of particular note is the property's impressive open-plan kitchen / dining room, which is underfloor heated throughout, boasts plenty of natural light and is finished to a meticulous standard. The kitchen has been fitted with a stylish range of high specification units with quartz work surfaces, has an island with a sink and breakfast bar, three skylights and French doors leading to the private rear garden. There is an integrated dishwasher and space / plumbing for various appliances. The back of the oven and fridge/freezer have gas and water connections respectively. Completing the ground floor accommodation is a separate utility room with further fitted units, space for a washing machine and a tumble dryer. The vendor has informed us that white goods will be included in the sale.

Upstairs are three bedrooms, two of which are comfortable doubles and both have built-in wardrobes. The bathroom has been fitted with a white suite, is complemented by attractive tiling and has a heated towel rail as well as underfloor heating. The landing provides access to a partially boarded loft.

Outside, the front of the property has a driveway, which benefits from an EV charging point and small open-plan garden, stocked with a variety of shrubs. A shared pathway leads down to a garage, and a side gate to the rear garden. The east-facing rear garden has an Indian sandstone patio, with the remainder being predominantly laid to lawn and bordered with a variety of raised sleeper beds, the whole is enclosed by fencing.

At the bottom of the garden is a smart garden studio, equipped with both power and plumbing and there is a raised decking area with a food prep station for barbecuing. This part of the garden benefits from the afternoon and evening sun, is very private and well suited to alfresco dining.

Agent's Note
