We are delighted to bring to the market a first floor office space. Holding some beautiful character details in keeping with the build period of the 20th century. Lovely stained glass windows through-out that absorb an abundance of light and white painted through-out for a fresh feeling. The property has private access with stairs leading to the first-floor area, holding a reception/waiting room, three separate rooms that can be used as office/meeting rooms. It also holds a kitchen and bathroom/utility room. 775sqft approx
