DESCRIPTION

Squirrels Hollow was built to an individual design in the late 1980's of brick with part rendered elevations under a tiled roof. It is approached over a tarmac drive with a gravelled car parking area to the side. Since they purchased eight years ago, the present owners have carried out a number of improvements including refitting the kitchen and bathrooms in 2020.

The layout is particularly thoughtful, with a large open plan living room/dining room having sliding windows to the 50ft balcony/terrace enjoying a wonderful woodland backdrop, being a natural haven for wildlife. The bungalow has a unique architectural identity with exposed stone walls, carvings and large picture windows. The bedroom accommodation is highly adaptable and as presently configured comprises five bedrooms and two bath/shower rooms. The bungalow extends to about 1,800 square feet (gross internal) plus the integral double garage (300 square feet).
