GENERAL REMARKS

Comment by Mark Johnson FRICS @ Baker Wynne and Wilson

This immaculately reconsidered end of row town house is in a prime location that offers a unique blend of convenience, style, and community. For buyers prioritizing location this opportunity is a compelling choice together with original features that have been celebrated and retained where possible, working in harmony with an exemplary contemporary renovation. The house has been redesigned with great consideration and precision. The original footprint is exploited to maximum effect with the layout extended at the rear.

Destined to attract professionals, downsizers, families, and investors due to prime location and lifestyle appeal – living close to workplaces, reducing travel time and costs.

The green expanse of Barony Park is located immediately to the front of the property with unrestricted parking on the road on a first come basis..

It is generally accepted that properties next to parks blend the convenience of urban living with the restorative benefits of nature, creating a rare and coveted equilibrium. Buyers and investors pay premiums not just for the tangible perks (views, air quality) but also for the intangible sense of well-being and prestige this location offers.
