

Commercial site for rent in Slindon

The National Trust are pleased to offer this 2.3 acre site in Slindon for rent. This area was historically used as a fruit & nuttree to provide produce for Slindon House and incorporates part of the historic entrance drive to the house. It has been used as a caravan and camping site for the last 30+ years.

Mainly a flat, grassy area with some hard standing and paths with historical fruit trees and a number of small wooden storage buildings. The site has mains electricity and water.

Our ideal tenant would align with National Trust values, run a sustainable business and would engage with the community. We are interested in hearing from interested individuals and businesses in all industries.

The successful tenant will enter into a Commercial Tenancy with the National Trust (contracted out of the Landlord and Tenant '54 Act).

Rent – Interested parties will be asked to include a rental figure with their application. Please note, the National Trust is not obligated to accept the highest rent. Each application will be assessed on its own merits.

Please contact Felicity.Bannister@NationalTrust.org.uk for an application pack and to receive an invitation to the viewing day. Please note that viewings are *strictly by appointment only*.
