Situation

The Sidings is situated at the former Bishops Nympton and Molland Station that was set on the former Devon and Somerset Railway Line that ran between Barnstaple and Taunton until it was closed in 1966. The various buildings associated with the station have also been converted into residential dwellings and The Black Cock public house still remains. Molland itself is only two miles away and lies just outside Exmoor National Park and has a pub, The London Inn, Church and village hall. Bishops Nympton is about 2½ miles and the market town of South Molton. The town offers a comprehensive range of amenities including schooling from nursery to secondary level, Sainsbury's supermarket, Post Office, pubs, cafes and a collection of independent and artisan shops. The town also bustles when the popular twice weekly, award-winning pannier market and weekly stock markets take place. The A361 (North Devon Link Road) bypasses the town and provides an excellent link to Barnstaple and the North Devon coast to the west and the M5 and Tiverton Parkway train station to the east.

Description

The Sidings is an interesting and impressive conversion of a former railway building which became redundant after the railway line closed in 1966. The impressive, stone goods shed was then converted in the 1990s to an impressive and spacious residential dwelling with the former platforms now forming part of the extensive gardens that run along the route of the former railway line.

The large gardens lie to the rear and stretch away to the side of the house. They are mainly laid to lawn with an area of paved patio leading out from the main living room which continues under a large pergola which provides a very pleasant sitting out area.
