SITUATION & AMENITIES

Muddiford is a village around three miles from the regional centre of Barnstaple, which offers the area's main business, commercial, leisure and shopping venues, as well as District Hospital. At Barnstaple there is access to the North Devon Link Road, which runs through, in a further 45 minutes or so, to Junction 27 of the M5 Motorway and where Tiverton Parkway also offers a fast service of trains to London Paddington in just over two hours. Less than half an hour by car are the beauties of Exmoor National Park and the famous sandy surfing beaches of Croyde, Putsborough, Saunton (also with championship golf course) and Woolacombe. The area is well served by excellent state and private schools. The nearest International Airports are at Bristol and Exeter.

DESCRIPTION

Plastow Mill offers various components and is also suitable for a variety of uses, both residential and commercial (possibly a holiday complex, wedding venue, equestrian orientated etc). These components include the main substantial, detached, Former Mill House which presents painted rendered elevations beneath a slate roof. The property has origins in the 1600's with Georgian facade added later and is Grade II listed, as being of architectural and historical importance. The accommodation is arranged over three storeys and includes on the ground floor; Hall, Cloakroom, Sitting Room, Dining Room, Kitchen/Breakfast Room, Boot Room. First Floor; Four Bedrooms, Office/Bedroom 5, Bathroom, Shower Room. Second Floor; Two Further Bedrooms. Stores and a Studio Room over, link to

Riverside Cottage which can intercommunicate with the main house at first floor level or be self-contained. This is two-storey and offers additional accommodation of, Ground Floor; Hall, Bed/Sitting Room. First Floor; Reception Room/Kitchen, Bedroom 2, Shower Room. There is an adjoining room which is partially converted and could create additional living accommodation, subject to planning permission and listing approval.

Riverside Cottage is currently run as a holiday let, producing income and has its own outside space overlooking the river and access to a detached sauna cabin. The main house could easily be adapted for dual occupation use, regardless of Riverside Cottage.

The Former Flour Mill, this is a very substantial detached stone building with slate roof which is Grade II listed also. The original Mill wheel is still in place, otherwise the building has a multitude of uses. On the ground floor there are two workshops, the two wheel rooms offer further storage with toilets facilities off. The first floor comprises a bar and party room with stage. There is a third-floor room providing further storage. Adjacent is a two-storey barn which accommodates the offices and preparation areas for the TROUT FARM BUSINESS, which is available by separate negotiation if required (further details regarding turnover, profitability, business rates, additional cost of the business etc, are available from the agent upon request). To the left of this is a single storey range of former piggeries, currently storage. To the right of the Mill building is a detached stable building and hay store.

The buildings form two sides of a large courtyard area, which the mill house and riverside cottage also back onto.

The land incorporates gardens but is mainly laid to reasonably level pasture all of which enjoy extensive river frontage to Bradford Water, which is stocked with Brown Trout and Salmon. Beyond The Mill and screened by it, are the workings of the fish farm smokery. This bespoke business serves local restaurants but is also open to the public on a low-key basis. We understand that there are fishing rights in the river.
