DESCRIPTION

Originally built as a Gentleman's residence in the 1920s and substantially extended over subsequent years, the sale of Henstridge House provides a rare opportunity to acquire a very spacious and adaptable home that will appeal to those who wish to entertain in style. It extends to over 5000 sq ft of accommodation on three levels, with many original features retained, including high ceilings, open fireplaces, ornate cornices and picture rails. The 'state of the art' leisure areas include a magnificent indoor swimming pool, sauna, steam room, gymnasium and a full-size snooker room at garden level. If yet further accommodation is required, then it should be noted that there is a large area of unused roof space at first floor level, which could be converted subject to the necessary consents. The accommodation can lend itself to use as a large single family residence, for dual occupation by parts of the same family, and also futureproofs bearing in mind that some bedrooms are on the ground floor. Alternatively, the accommodation could be reconfigured to provide more bedrooms and less reception area. This also applies to the large garage/workshop, situated adjacent to the commencement of the entrance drive. This building is arranged on two floors, has its own area of garden, and lends itself to conversion to annexed accommodation, holiday cottage, or possibly a completely independent dwelling, subject to planning permission. The property is approached off the road, through electrically operated gates, over tarmacadam driveway that extends beyond the residence, providing more than ample parking areas. The external living space continues the theme of entertaining, with South facing balconies and terraces, etc. The property is currently operated as a thriving holiday let. If this is the motivation for your interest then latest details of income are available upon request from the selling agents, and the majority of contents are available by separate negotiation if required. This is quite an amazing and totally individual home with income potential if required, due to its location close to the foothills of Exmoor and the rugged North Devonian coastline.
