The Property

Accommodation

Inside

Ground Floor

The front door opens into a useful porch with plenty of room for coats, boots and shoes. A paned glass door opens into a bright and spacious combined kitchen and dining room with windows to the front, stairs with storage beneath rising to the first floor and a paned glass door into the sitting room.

The kitchen area is fitted with a range of modern, sleek finished soft closing units consisting of floor cupboards - some with drawers and eye level cupboards. You will find a generous amount of wood block effect work surfaces with a tiled splash back and a stainless steel sink and drainer with a mixer tap. There is space for a fridge/freezer and plumbing for a washing machine plus a built in electric oven and gas hob. For practical reasons, the floor is laid in an attractive tile effect vinyl.

At the back of the house is a generously

sized sitting room with a window to the rear and large double doors opening out to the rear garden.

First Floor

On this floor you will find two double bedrooms with built in wardrobes and a single bedroom with the rear bedrooms enjoying a view of Okeford Hill in the distance. There is also the bathroom, which is fitted with a modern suite consisting of a L shaped bath with mains shower over and choice of hand held or rainfall shower head, vanity wash hand basin and a WC with a concealed cistern. There is full height tiling around the bath area and the floor is laid in an attractive laminate tile.

Outside

Parking

At the front of the house there is a paved drive with space for one car plus a further gravelled area that provides an additional parking space. You will also find an electrical charging point for a car to the side of the house.

Gardens

To the front there is a grassed area and

shrub bed. The rear garden has been thoughtfully designed to require minimal upkeep. Immediately to the back of the house there is a good sized paved area, which extends to the side and is partly under cover. A low brick wall retains the lawn to one side and provides an ideal shelf for pot plant displays. Gentle steps beneath a timber pergola and shrub beds to either side, rise to a further part of the garden, which is laid to stone chippings. Here you will find a useful garden shed and a delightful summerhouse that looks down the garden to the house. Attached to the side of the house is a useful insulated and lockable store with door out to the front.
