- Private rear gardens and off-road parking
- Forest of Dean District Council. Tax Band TBC

£595,000

Chapel End

Located in the rural village of Hartpury, Chapel End is a small development of two-, three- and four-bedroom homes.

Built by local, award winning contractor Aqua Construction, sustainability and the environment have been at the forefront of the design. Each home comes with an 'A' rated EPC; featuring rainwater harvesting, air source heat pumps for underfloor heating, and roof mounted solar panels, for energy efficiency and reduced ownership costs. In addition, there are electric vehicle charging points at each property.

The traditional design of the homes is in-keeping with neighbouring developments. The homes are faced in brickwork and clay plain tiles with anthracite grey windows, doors, and

fascia/bargeboards to give a modern twist to the scheme.

Ecological enhancement, and mitigation measures were an important consideration at the design stage. A street lighting strategy was produced to not interfere with the bats and hedgehog highway routes are proposed between neighbouring fences together with hedgehog nesting boxes. Various bird nesting boxes are to be incorporated into the build. Existing hedgerows are to be enhanced and new hedges will be planted with native species.

Entrance hall

With stairs leading up to the first floor and doors leading off to ground floor accommodation.

Living room

Two windows to the front aspect.

1 High Street, Newent, GL18 1AN
