New office space opportunities.
Immediately available.
Only **2,500 sq ft to 5,000 sq ft** remaining.

HARLOW INNOVATION PARK

TOGETHER WE DISCOVER TOMORROW

Grade 'A' office building with 2,500-30,000 sq ft to let at the heart of Harlow Innovation Park.

A state-of-the-art, flexible workspace with ultrafast internet connection and café, built with established science and technology businesses in mind. Carefully designed by Scott Brownrigg to foster collaborative working and employee wellbeing.

This forward thinking development will create a collaborative, progressive community within the Harlow Enterprise Zone.

Located within the established London-Stansted-Cambridge Corridor, this area already has a global reputation for excellence in scientific research.

WELLBEING STARTS WITH **'WE'**

At Harlow Innovation Park, we put people first

When people thrive, businesses follow. Taking a human-centred approach, Harlow Innovation Park is designed to empower workers' development and support their wellbeing.

The buildings, technology and outdoor space have been informed by research into how people interact with their work environment.

Natural light is maximised, the grounds are full of places to sit and chat, with future plans for a nursery, gym and caf onsite. In the meantime, there are plenty of amenities nearby including:

- Mark Hall Sports Centre
- Coffee Base caf
- Co-op supermarket

Talented people will want to work here – and they'll want to stay.

AN INSPIRING PLACE TO BE

There's a new destination for pioneering scientific and technological development in the heart of the UK's Innovation Corridor.

Designed to work in symbiosis with forward-thinking, highly driven businesses, Harlow Innovation Park offers a supportive and collaborative environment that encourages growth, nurtures partnerships and promotes wellbeing.

Set in landscaped grounds, the 25 acre Innovation park features ultrafast broadband, cutting-edge biophilic building design – for healthier, more productive work spaces – and a range of amenities to foster a better work/life balance.

This is more than just business space. Harlow Innovation Park is an exceptional opportunity for like-minded companies to spark connections, share ideas and create the future.

- Floor to ceiling heights 2.75m
- Suspended metal pan ceiling tiles
- Recessed LED lighting
- Raised floors and skirting
- Open plan configuration
- VRF cooling and heating systems

CONNECT AT LIGHTNING SPEED

Ultrafast broadband as standard

As you'd expect from the birthplace of fibre optics – developed next door at the former STC building, now home to Kao Park Data Centre – Harlow Innovation Park offers outstanding connectivity for businesses of every size.

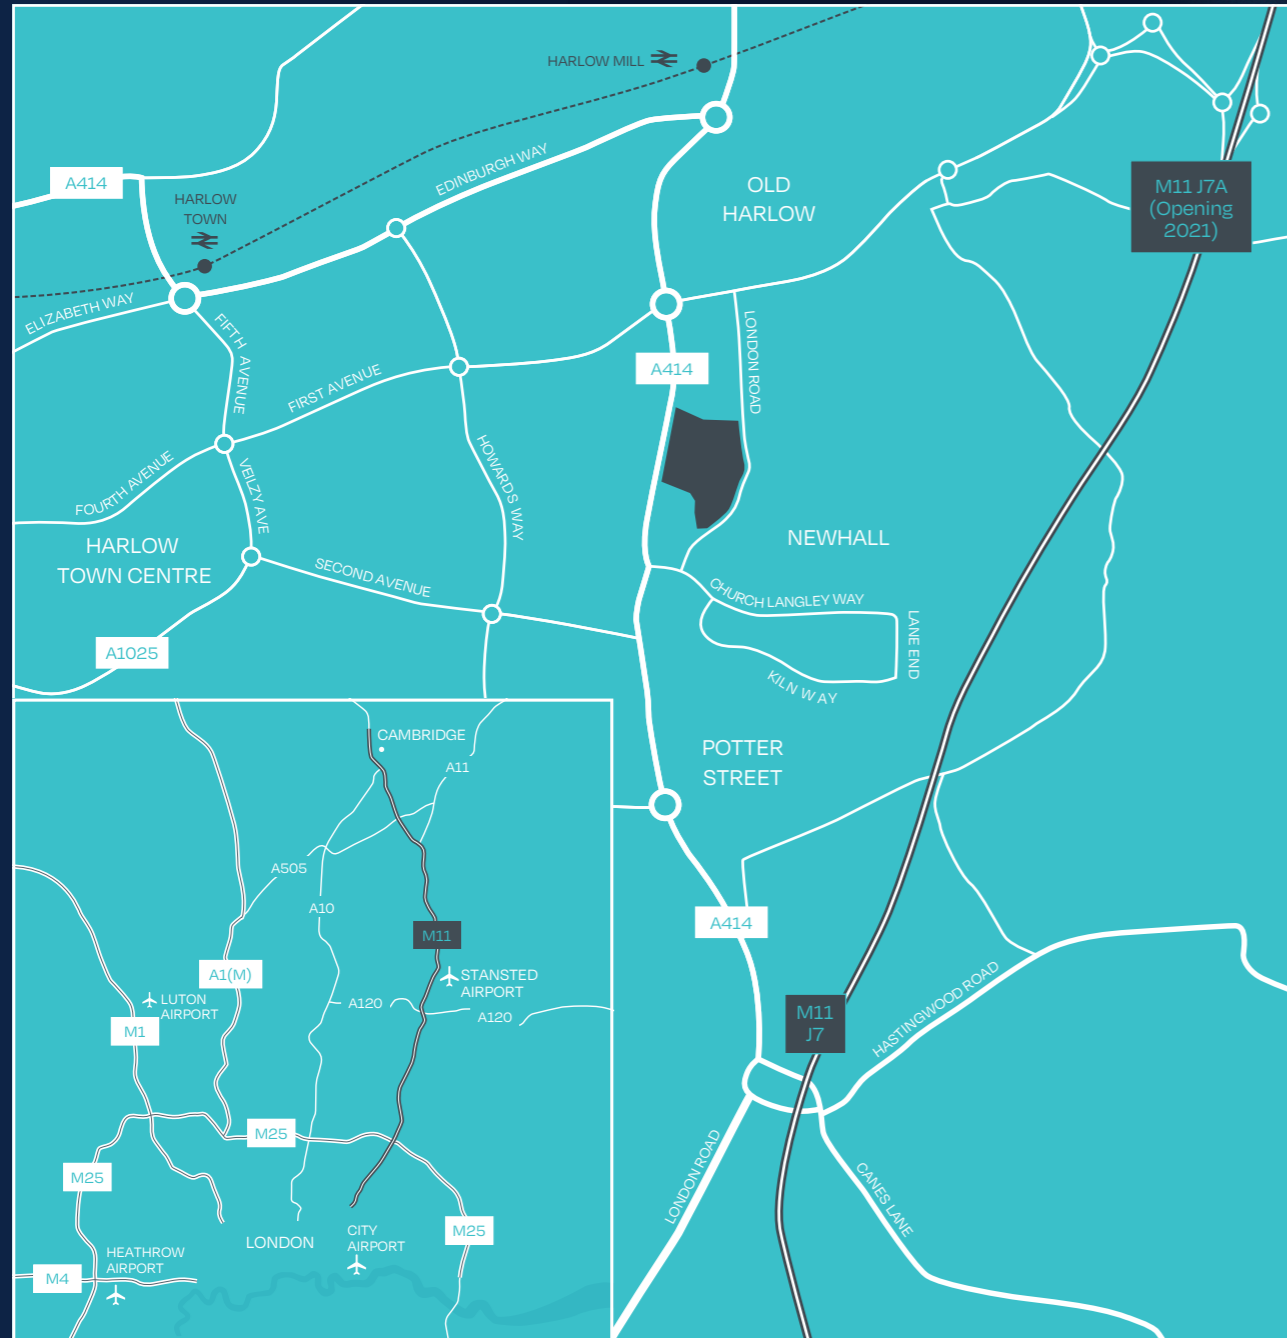

Enjoy the benefits of full fibre ultrafast broadband, with a flexible choice of existing on-site providers and fast set-up.

The birth place of fibre optics and broadband

In 1963, electrical engineer and physicist Sir Charles Kao joined STC (later Nortel) in Harlow.

In just a few years, he and George Hockham made revolutionary discoveries about fibre optics, inventing fibre optic cable and laying the groundwork for all modern communication, including the evolution of the internet itself. They won the Nobel Prize for Science – and changed the world.

Situated at the heart of the London-Stansted-Cambridge corridor.
