There is a pedestrian gate to each side of the property with a paved pathway to the garage side (outside tap serving the front) which opens on to a large area of wide terracing the width of the property whilst the other side opens on to a large side area of garden (a further outside tap can be found here). The side garden is a suntrap and includes further terracing, a large gravelled sitting area, lawn and further planted beds (together with side access to the property via the utility room).
The beautiful gardens are well established and offer a great deal of privacy with planted borders that boast an array of specimen plants, trees and shrubs. Sleeper steps rise up from the terrace to an attractive area of undulating lawn.

In all the large plot extends to 0.25 of an acre.

Should purchasers require, there is sufficient space and scope to construct separate garaging, to the front or side of the property, and/or to extend the property into the side garden area, subject to any necessary planning consents.

Agents Note
The garage is presented plastered and painted (save for the garage door end) together with skirting boards and a fitted radiator due to its original intended use as further living accommodation when the property was first built. Therefore the garage offers purchasers immediate potential for an easy and cost effective to finish conversion, subject to any necessary consents, which would further enhance the ground floor accommodation i.e. another large reception room, an en-suite bedroom for dependent relative, a large study / home office, a games / hobbies room, a multi-media room etc.. If converted the overall accommodation would then exceed 2,000 sq. ft.

None of the services or appliances mentioned in these sale particulars have been tested.
