Mains Electric, Gas, Water and Sewerage

Broadband ADSL Copperbased

phone landline

No Flooding in the last 5 years

Solar Panels - The company that installed the solar panels is called "EES Operations 1 Limited". The panels were installed on the 4th July 2011 and the lease lasts 25 years and 3 months, which means there are 12 years left until the lease expires. At the end of the lease the ownership of the system reverts to the owner of the bungalow.

The owner of the panels ("the tenant") is responsible for maintaining and repairing the panels.

The terms of the lease state that any electricity generated by the system may be used by the owner for the benefit of the property whilst any electricity which is not used by the owner is exported to the grid for the benefit of the tenant.

Full details on request.
