Guide Price £499,950, Freehold

Property Description

Combining the innate character and charm of a period home with all the contemporary refinements of modern day living, this stylishly refurbished three storey, two double bed roomed traditional Cotswold cottage has a spacious living room to the front with the homely woodburning stove and a stunning fitted kitchen to the rear with a good range of integrated appliances and bi-fold doors leading directly on to the enclosed rear garden.

On the first floor there is a bedroom with a bank of fitted wardrobes and a stylish shower room and a master bedroom on the second floor with a decadent freestanding roll top slipper bath and an ensuite wash room.

The property has sealed unit double glazing, gas fired central heating from a recently renewed boiler and very importantly there is off-street parking for two vehicles allocated to this property and a very useful brick built outhouse.

The village is now probably most famous as being the location for filming the BBC series Father Brown under the name of Kempleford.

The property is located on one of the approaches to undoubtedly one of the most popular villages in the North Cotswolds, around quarter of a mile from the village green. Blockley has two public houses, its own mini supermarket, primary school and a village café that doubles as a fine dining restaurant several evenings a week.

Blockley is located mid-way between the Cotswold café society of Chipping Campden and the more traditional town of Moreton-in-Marsh where there is a large range of shops, supermarket and amenities and the all important railway station with links to Oxford and London Paddington.
