DESCRIPTION

Blackwell Cottage is Grade II Listed for its architectural merit and originally comprised a pair of timber framed cottages which have subsequently been successfully amalgamated and substantially extended to create a family home of much warmth and note. The property is believed to have had origins in the 16th century and, whilst much original character has remained with some fine timbering throughout, the property now benefits from tasteful décor, superbly appointed kitchen and bathroom suites and double glazing.

The property sits within grounds of approximately 0.8 acres in total with glorious views over adjoining open fields and farmland. There are sweeping lawns, well planted beds and a heated swimming pool.

Blackwell Cottage has a wide frontage to Donington Lane and is approached through wrought iron gates set within brick walls which lead to a gravel DRIVEWAY providing ample off street parking. The house stands behind a front terrace laid in brick sets with gated access leading to the gardens which are a particular feature of the house with sweeping lawns, well stocked beds and borders, many trees, an extensive entertainment patio laid in brick sets to the rear of the house and far reaching views.

There is a heated swimming pool with a Roman end with steps and recently refitted liner together with an electronically operated roller cover. The pool is surrounded by a terrace laid in brick pavements with further areas of lawn, a brick wall with blue brick coping and a timber SUMMER HOUSE with electric light and power.

Beyond the swimming pool terrace is a part gravelled and hardstanding courtyard with separate vehicular access to Donington Lane and a STABLE BLOCK with a stable with workshop / tack area to one side and a useful store with roller shutter door, electric light and power.

Standing along side the drive is a substantial THREE BAY GARAGE BLOCK with three electric roller shutter doors. One of the bays has been converted to provide a workshop and servery with shelving, a stainless steel double sink and a CLOAKROOM with white suite. Stairs from this bay rise to a LEISURE ROOM above which could be used for a variety of different purposes and which would make an ideal office for those wishing to work from home. Adjoining the garage block are three kennels, each with a secure pound in front and there is a timber shed.

We are informed by the Vendors that mains water and electricity are connected, the heating is oil fired and drainage is to a septic tank.
