GENERAL COMMENTS

North Carne Farm comprises a handsome detached period stone farmhouse and a range of modern and traditional farm outbuildings in a very private rural setting perfectly located at the end of a long lane surrounded by its own grounds. The farm lies on the outskirts of Stithians with excellent facilities and whilst seemingly remote and "miles from anywhere" it is just over a mile from a pub, whilst Redruth, Falmouth and Truro are within a short drive. It is a totally unspoilt farm with a fabulous range of farm buildings and detached traditional two storey stone barn which offers huge development potential. However it is a joy nowadays and a rarity to find a farmstead that has not been split up into various ownerships or had the farm buildings converted. North Carne Farm is perfect for those looking for privacy. The farm extends to approximately thirty two acres or thereabouts. The farmstead sits perfectly within a ringed fence and the land is conveniently split into six fields enclosed within natural hedges and a river runs along the lower boundary. There are far reaching views from the farmhouse and land over the surrounding countryside with glimpses of Stithians Reservoir. In these days of increasing urbanisation it is rare to find a property so genuinely unspoilt and unique and hence North Carne Farm will be of undoubted appeal to many discerning purchasers and especially those seeking peace and tranquillity.

LOCATION

The closest village to North Carne Farm is Stithians which is approximately two miles. Stithians has a good range of village facilities including shop, public house, primary school and doctors surgery. A water sports centre is about a

mile away. Stithians is approximately six miles from Redruth and approximately nine miles from Truro and Falmouth.

THE LAND

North Carne Farm extends in total to just over 32 acres. The farm is enclosed within a ringed fence of natural hedge boundaries divided into several useful enclosed fields. All the land is in grass and fairly level or gently sloping and a natural stream

flows along the lower boundary. The land is in good heart and has not been intensively farmed but grazed by cattle for many years. The majority of land is productive farmland and provides a wonderful environment for an abundance of wildlife as does the moor land and river that runs along the northern boundary.

SERVICES

Mains water and electricity are connected. Private drainage. Oil fired central heating.

N.B

The electrical circuit, appliances and heating system have not been tested by the agents.
