Front of the home

The carefully planned and maintained front garden is a foretaste of the quality you will find within the home. It has west-facing views of lush, rolling countryside immediately across the road. A pair of decorative iron gates open onto the block-paved driveway, which has space for 2-3 vehicles to park. A traditional Derbyshire dry stone wall forms the front and right boundaries, with a timber picket fence on the left. Colourful flower beds on the left include an eye-catching hazel tree. The neat lawn on the right has gently curving planted borders packed with mature plants, a poplar tree and black iron lamp-post, with a working light operated from the lounge. Beyond the lawn, a raised flower bed has elder and magnolia trees. The path circumvents the lawn and passes down each side of the home round to the rear garden.

Enter the home through the glazed uPVC front door into the entrance porch.

Entrance Porch

With a tiled floor, deep windows and vaulted roof window, this is the perfect place to kick off muddy boots after a hearty local walk. There is an exposed stone wall on the right, wall lights and plenty of room to store coats and footwear. A part-glazed uPVC door opens into the entrance hallway.

Entrance Hallway

The wide and welcoming hallway has hardwood flooring, a high ceiling with light fitting and modern radiator. There is space on the left for a storage cupboard, desk or console table. Matching Mexicana doors lead into each of the ground floor rooms.

Sitting Room

15'5" x 11'11" (4.7 x 3.65)

This room is flooded with natural light thanks to the wide west-facing bay window and the deep south-facing window. A wood burner sits within the marble fireplace, with matching hearth and surround. There is a tall arched alcove to the left. The room has a ceiling light fitting radiator and plenty of space, offering the opportunity for multiple different room layouts.

The Mira electric shower has a rainforest shower head and additional hand-held attachment. There is a capsule ceramic WC and the ceramic Roca sink with chrome mixer tap sits upon the vanity unit. Above, is a mirrored cabinet and the room also includes a chrome vertical heated towel rail, frosted double-glazed window and recessed ceiling spotlights.

Kitchen

14'1" x 11'11" (4.3 x 3.65)

We love this sleek modern kitchen, with Neff appliances and a large pantry. From the entrance hallway, on the left are two large pull-out full-height cupboards beside the integral double Neff ovens and AEG microwave.

To the right is a wide U-shaped worktop with plenty of space for food preparation and small appliances. There is plenty of storage in a range of high and low level cabinets, including several deep pan drawers. There is an integrated full-height fridge-freezer and the Neff electric hob has a curved brushed chrome extractor fan above. The boiler is situated in a cupboard beside the hob. Within the cabinets below the worktop are an integrated Neff dishwasher and space and plumbing for a washing machine.

A wide east-facing window looks out to the conservatory and, beyond, to the fabulous countryside views. Beneath this window is an integrated 1.5 sink and drainer with chrome mixer tap. There is also a south-facing window on the right bringing extra light in.

A Mexicana door opens into the large pantry, which has a worktop, shelving and porthole window. The controls for the solar panel are housed here too. The kitchen also includes a radiator, rectangular ceramic tiled floor, recessed ceiling spotlights and a half-glazed door into the conservatory.

Rear Garden

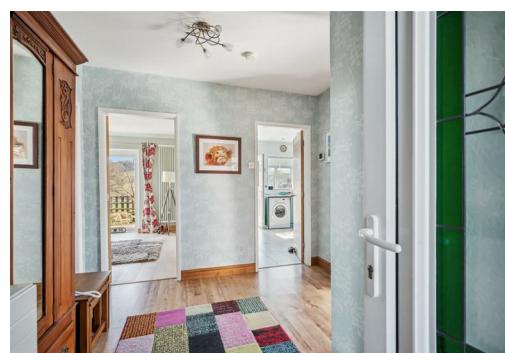

With simply stunning open views to open countryside and farmland immediately over the garden fence, this is a delightful rural idyll in which to potter and relax. A timber fence forms the boundary to the south and east. The wide paved patio stretches forward to a sunken dining patio in the right-hand corner, which gets the sun all day long. There are several well-maintained flower beds, an electric-operated fountain and a sheltered seating area in the north-west corner beside the garage. So you can choose to chase or shelter from the sun in various parts of the garden.

The solar panels on the roof are visible from the garden and there are two wood stores on the side of the home, near the wall-mounted ceramic Belfast sink. There is also an outside tap and outside lights.

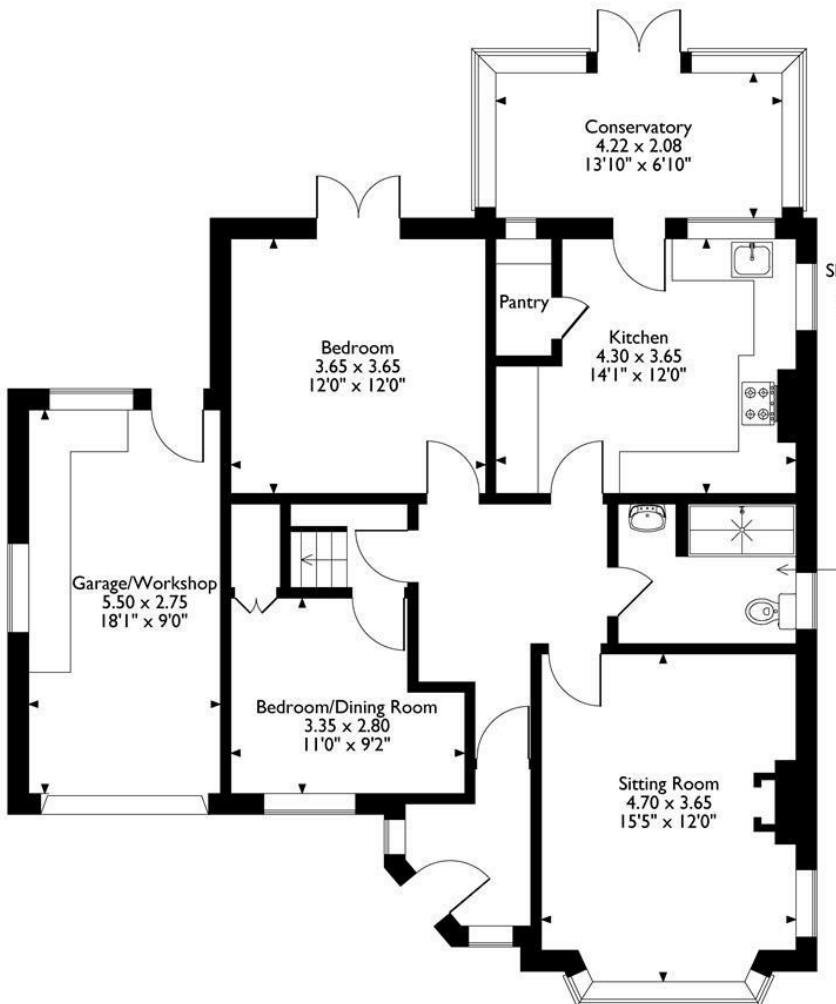

Garage-Workshop
