ABOUT ET LOREM

Et Lorem is an independent kitchen specialist, dedicated to creating beautiful kitchen and living spaces, that exceed expectations every step of the way.

Through our knowledge and many years working in the home-counties and across London, we have developed a deep understanding of our clients and the surrounding architecture which contributes to creating unrivalled kitchens and living spaces.

If we are lucky enough to be chosen to bring your vision to life, you'll have a dedicated team working on your space from start to finish. This ensures there's creative consistency and a personalised service at every stage.

Our service includes a bespoke kitchen design, project management and the highest standard of installation, as well as ongoing aftercare. Our process has been honed over many years to ensure your kitchen will be cherished for years to come.

SUSTAINABILITY

Consideration of sustainability is at the forefront of how Et Lorem operates. We work with brands that share our vision and we are constantly seeking new ways to reduce our impact on the environment; both in the way we work and the materials we use within our designs.

We are partnered with sustainability expert Eight Vera, who are guiding us on our journey to becoming carbon neutral by 2025. As a business we are committed to a goal of becoming Net Zero by 2030.

We can also help you give your existing kitchen a new life, or ethically dispose of it if required, through our partnership with The Used Kitchen Exchange.
