This map displays nearby coal mine entrances and their classifications.

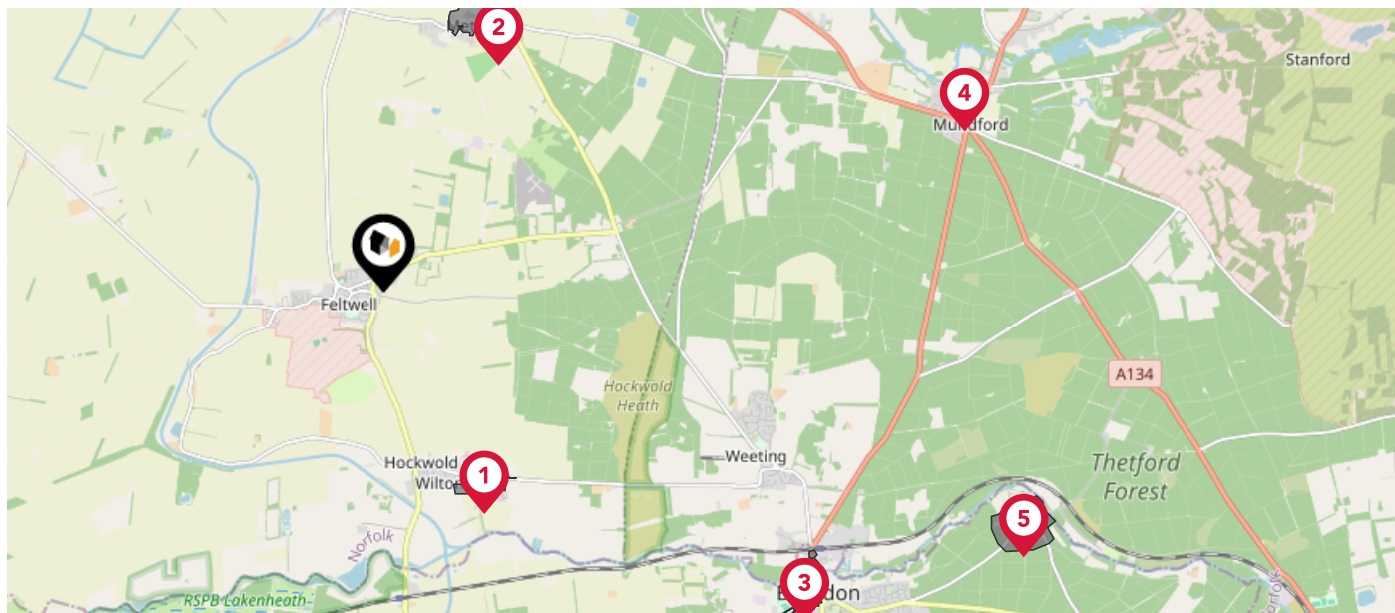

### Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

### Nearby Conservation Areas

Hockwold cum Wilton

Methwold

Brandon

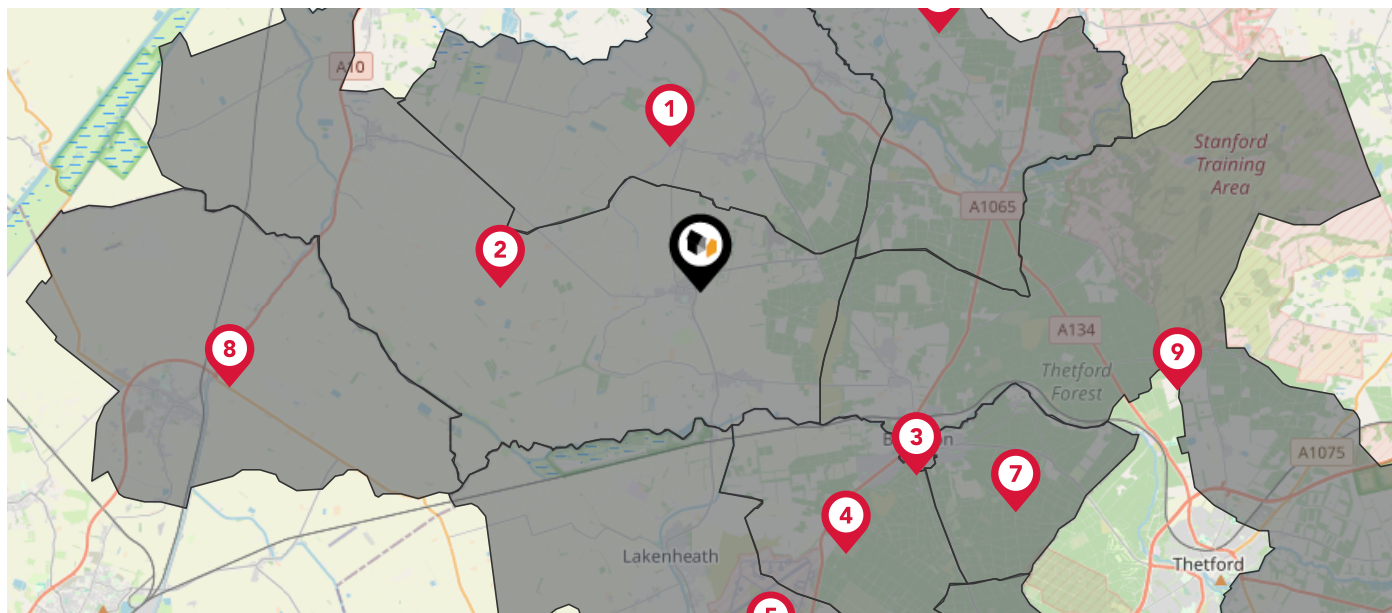

Mundford

Santon Downham

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

**Risk Rating:** Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.25%) in any one year.
- Very Low Risk** - an area in which the risk is below 1 in 1000 (0.25%) in any one year.

Chance of flooding to the following depths at this property:

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

### What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m<sup>3</sup>).

This data indicates the level of noise according to the strategic noise mapping of road sources within areas with a population of at least 100,000 people (agglomerations) and along major traffic routes. This indicates a 24 hour annual average noise level with separate weightings for the evening and night periods.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

- 75.0+ dB
- 70.0-74.9 dB
- 65.0-69.9 dB
- 60.0-64.9 dB
- 55.0-59.9 dB

# Chilterns

## Chilterns

---

Our association with The Guild of Property Professionals ensures our properties are marketed throughout a network of over 800 offices nationwide, advertising over 65,000 properties, including access to the Guild's prestigious showrooms on London's Park Lane. This gives properties offered through Chilterns unrivalled exposure to the widest market place.

## Testimonial 1

Bought my first house through chilterns, I could not of asked for a better team in Darren and Andrew. This 5 star reviews is truly reflective of the amazing service, effort and hard work they both put into making the sale go forward. There were a number of hurdles (none of which caused by them) that they relentlessly worked through doing everything to make my life easier and informed/advised me every step of the way! 100% recommend these!

## Testimonial 2

Chilterns have provided the most spectacular service whilst dealing with the sale of a late family members property, they handled the sale from start to finish, delicately, efficiently and without a hiccup. Resulting in a smooth process which was greatly appreciated during such a difficult time. Special thanks to Joe, Yannis, Andrew and Darren for their parts played throughout the valuation, sale and completion.

## Testimonial 3

My parents needed to move closer to myself and my sister. Yannis visited the bungalow and from the start focused on the needs of my parents and how he could help. At no point was there any pressure. The price he suggested was higher than other agents. After a few days we agreed to put the bungalow on the market. Andrew visited the house and was polite and exceptionally professional . Andrew, Darren and Emma looked after the sale through myself

## Testimonial 4

Before selling my house, I thought that all estate agents were the same. I was wrong. Unlike the real estate agents from whom I bought my new house, Darren and Andrew at Chilterns have been absolutely fantastic. Supportive, responsive and informative. They expertly dealt with the conveyancers to ensure that the sale was completed when I needed. I wished I could rely on them in the future!
