56, School Green Lane

Sheffield, S10 4GR

Description

A semi detached bungalow that occupies an enviable, edge of countryside position and commands a fine view over the Mayfield Valley. The property is situated on a larger than average plot, beyond a broad grass verge on the road and offers over 900 square feet of accommodation on the ground floor. Although requiring a general scheme of modernisation it does offer the next owner the potential to develop further (perhaps into the loft and to the rear) to form additional accommodation if required and subject to the necessary consents. With generous proportions in the principal accommodation (main bedroom, reception room and kitchen) to complement the size of the garden and the huge potential to extend. The location is also first class, situated on the very edge of Fulwood Village and the Mayfield Valley, close to bus services, outstanding schooling, scenic walking trails and local shops. Estate agents often add 'rare opportunity' to their listings but in this case, we think you would agree, properties in this location are indeed rare to the market and when you combine this with the breath-taking views and obvious potential it is worthy of the moniker!

- Stunning views over The Mayfield Valley and a sought after location on the edge of countryside yet conveniently placed to access local amenities in Fulwood Village.
- Three bedrooms (including two doubles with fitted wardrobes), offering versatility in the way they can be used.
- Large breakfast kitchen with a rear outlook, over the pretty garden and offering the potential to extend.
- Off road parking for at least two cars and a lovely garden with terrace, lawn and summerhouse.
- Spacious reception room enjoying the excellent outlook over the valley.
- Bathroom with jacuzzi bath.
- Entrance hall and separate utility room (accessible from the rear terrace).
- Large loft space for storage or development.
- Freehold and Council Tax Band D.
- Gas central heating and UPVC double glazing combine to produce an EPC rating of D63.
