CONVERSION OF THE STEADING

The conversion of Forsinain Steading has been a labour of love over many years and has been carried out to exacting craftsmanship. The roof has been partially re-slatted, the exposed stone walls repointed, original beams and doors restored and shown off as a feature. Forsinain would make a fantastic modern country lodge set in the Flow Country which is a UNESCO World Heritage Site

EAST WING

The entrance to the property is via the east wing, through a porch and into the double height dining hall with a mezzanine area and gallery giving access to three bedrooms on the first floor. The room has exposed stone walls and Caithness flagstone floor and many of the original features such as exposed beams and slit windows. Down some steps and you are into the large kitchen family room that has 4 large windows facing east and windows on two other walls. The room has an expanse of fitted base units in red gloss and has integrated dishwasher, gas hob and Esse Range Cooker. The island unit has under counter fridges and a breakfast area for sitting at whilst socialising and creating meals. The other half of the kitchen is presently used as a family room with French doors leading out to the courtyard.

UTILITY & PLANT ROOM

From the dining hall into the rear of the east wing is a combination of cloakroom, w/c, store room, pantry, and plant room with the bio mass boiler. A spacious utility with storage cupboards, space for fridges and freezers, door into boiler room and door out to the rear garden.

SOUTH WING

The Great Hall sits in the middle of the property joining the east and west wings. Three large windows overlook and provide access to the courtyard. The hall has Caithness flagstones on the floor, all of which are reclaimed from the old steading and still have the markings from machinery used, the original beams are exposed and supporting pillars are in situ. as well as a modern log burner and bespoke log store with bench. The high ceilings and open room will look amazing with the right furniture. A stairwell with double height ceiling leads to a large mezzanine area which overlooks the great hall and has been designed with a library in mind, exposed beams and struts make for an interesting feature.

Two further rooms lead off the great hall and could be games rooms, snugs, bedrooms or if the steading was to be divided into two dwellings, with the appropriate planning consents, then the rear room could be utilised as a separate kitchen with an exit to the rear garden. A bathroom is accessed from the Great Hall. A utility and boot room are located to the rear of the Great Hall and have an exit to the rear garden.
