QUALITY DETACHED OFFICE AND INDUSTRIAL BUILDINGS

LOCATION

Aberdeen is recognised as a major international centre within the worldwide energy sector and is a major contributor to the Scottish and UK economies. The city is the European hub for oil and gas exploration and production in the North Sea. Expertise and techniques developed in Aberdeen are now exported and adopted in energy provinces worldwide. In addition, Altens Industrial Estate is now deemed part of Aberdeen's Energy Transition Zone (ETZ) and this should lead to increased activity in the renewables and net zero sphere. Road connections to the Port of Aberdeen, South Harbour are likely to be improved.

Situated in the Altens Industrial Estate, these plots form part of Peterseat Park – a modern addition to one of Aberdeen's most established industrial areas. Enhanced by the AWPR, road communications to the South and all parts of the city are excellent as are links to the city's railway and harbour facilities, including the soon to be opened Port of Aberdeen, South Harbour. Amongst others, occupiers situated in Peterseat Park include RS Components, Aalco Metals, Wartsila UK, Glacier Energy Services and DistributionNOW.

DESCRIPTION

- Quality office and industrial buildings on substantial sites with secure yards
- Steel portal frame construction with pitched roofs incorporating translucent panels
- Concrete block walls to dado level with profiled cladding above

OFFICES

- Two storey to the front of the building
- Flexible open plan office space with kitchen and toilet facilities
