PART 1 - GENERAL

1.1 THE SURVEYORS

The Seller has engaged the Surveyors to provide the Single Survey Report and a generic Mortgage Valuation Report for Lending Purposes. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

The Surveyors are authorised to provide a transcript or retype of the generic Mortgage Valuation Report on to Lender specific pro-forma. Transcript reports are commonly requested by Brokers and Lenders. The transcript report will be in the format required by the Lender but will contain the same information, inspection date and valuation figure as the generic Mortgage Valuation Report and the Single Survey. The Surveyors will decline any transcript request which requires the provision of information additional to the information in the Report and the generic Mortgage Valuation Report until the Seller has conditionally accepted an offer to purchase made in writing.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report and generic Mortgage Valuation Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report and generic Mortgage Valuation Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon Residential Property¹.

If the Surveyors have had a previous business relationship within the past two years with the Seller or Seller's Agent or relative to the property, they will be obliged to indicate this by marking the adjacent box.

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

1.2 THE REPORT

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

Prior to 1 December 2008, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

¹ Which shall be in accordance with the current RICS Valuation Standards (The Red Book) and RICS Rules of Conduct.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

1.3 LIABILITY

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to:

- the Seller:
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether
 or not that offer is accepted by the Seller;
- the Purchaser; and
- the professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

1.4 GENERIC MORTGAGE VALUATION REPORT

The Surveyors undertake to the Seller that they will prepare a generic Mortgage Valuation Report, which will be issued along with the Single Survey. It is the responsibility of the Seller to ensure that the generic Mortgage Valuation Report is provided to every potential Purchaser.

1.5 TRANSCRIPT MORTGAGE VALUATION FOR LENDING PURPOSES

The Surveyors undertake that on being asked to do so by a prospective purchaser, or his/her professional advisor or Lender, they will prepare a Transcript Mortgage Valuation Report for Lending Purposes on terms and conditions to be agreed between the Surveyors and Lender and solely for the use of the Lender and upon which the Lender may rely. The decision as to whether finance will be provided is entirely a matter for the Lender. The Transcript Mortgage Valuation Report will be prepared from information contained in the Report and the generic Mortgage Valuation Report².

1.6 INTELLECTUAL PROPERTY

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless

² Which shall be in accordance with the current RICS Valuation Standards (The Red Book) and RICS Rules of Conduct.

they assign the same to any other party in writing.

1.7 PAYMENT

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports.

1.8 CANCELLATION

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the Surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an invoice equivalent to 80% of the agreed fee.

1.9 PRECEDENCE

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

1.10 DEFINITIONS

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Transcript Mortgage Valuation Report for Lending Purposes" means a separate report, prepared by the Surveyor, prepared from information in the Report and the generic Mortgage Valuation Report, but in a style and format required by the Lender. The Transcript Mortgage Valuation Report for Lending Purposes will be prepared with the skill and care reasonably to be expected from a surveyor who is a member of the Royal Institution of Chartered Surveyors and who is competent to survey, value and report on the Property;
- the "Generic Mortgage Valuation Report" means a separate report, prepared by the Surveyor from information in the Report but in the Surveyor's own format;
- the "Market Value" is the estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion;
- the "Property" is the property which forms the subject of the Report;
- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller;

- a "prospective Purchaser" is anyone considering buying the Property;
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property; and
- the "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member or partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

PART 2 - DESCRIPTION OF THE REPORT

2.1 THE SERVICE

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company. In addition, the Surveyor has agreed to supply a generic Mortgage Valuation Report.

2.2 THE INSPECTION

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

2.3 THE REPORT

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments

being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyor's opinion, are not significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the Report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

- 1 <u>Category 3:</u> Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.
- 2 <u>Category 2:</u> Repairs or replacement requiring future attention, but estimates are still advised.
- 3 Category 1: No immediate action or repair is needed.

WARNING: If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable.

Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

2.4 SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

2.5 ACCESSIBILITY

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

2.6 ENERGY REPORT

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

2.7 VALUATION AND CONVEYANCER ISSUES

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

"Market Value" The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use

communal grounds, parking areas, and other facilities;

- There are no particularly troublesome or unusual legal restrictions;
- There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

"Re-instatement cost" is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees).

Sellers or prospective Purchasers may consider it prudent to instruct a reinspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property.

1. Information and scope of inspection

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without moving any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right in a description of the exterior of the property refer to the view of someone standing facing that part of the property from the outside.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities etc. will not be inspected or reported on.

| Description | The subjects comprise a detached bungalow. | |
|--------------------------------|--|--|
| | | |
| Accommodation | Ground Floor - Entrance Vestibule, Hall, Living Room, Dining/Family/Kitchen, Utility, Four Bedrooms (master with en-suite bathroom and bedrooms two and three with Jack and Jill en-suite shower room) and Bathroom with WC. | |
| | | |
| Gross internal floor area (m²) | Approximately 187 square metres or thereby. | |
| | | |
| Neighbourhood and location | The subjects are situated within a rural location between the towns of Ardrossan and the village of West Kilbride where local amenities can be found. | |
| | | |
| Age | Approximately 30 years. | |
| | | |
| Weather | It was dry with clouds overhead during the time of our inspection. | |
| | | |
| Chimney stacks | None. | |

| Roofing including roof space | Sloping roofs were visually inspected with the aid of binoculars where appropriate. |
|-------------------------------------|--|
| | Roof spaces were visually inspected and were entered where there was safe and reasonable access, normally defined as being from a 3m ladder within the property. |
| | If this is not possible, then physical access to the roof space may be taken by other means if the Surveyor deems it safe and reasonable to do so. |
| | Access to the roof void was via a hatch formed in the hall ceiling. The roof was found to be of timber framed construction in a pitched design overlaid with interlocking tiles with tiled ridge details. |
| Rainwater fittings | Visually inspected with the aid of binoculars where appropriate. |
| | The rainwater goods pertaining to the property are run in PVC. |
| | |
| Main walls | Visually inspected with the aid of binoculars where appropriate. |
| | Foundations and concealed parts were not exposed or inspected. |
| | The main walls appear to be of cavity timber framed construction with an outer leaf of brick/blockwork, rendered and pointed externally. |
| Windows, external doors and joinery | Internal and external doors were opened and closed where keys were available. |
| | Random windows were opened and closed where possible. |
| | Doors and windows were not forced open. |
| | Windows are of PVC framed double glazed units with the access doors being timber/PVC composite units. There are PVC double glazed patio doors to the front of the property. The eaves and soffits pertaining to the property are clad in PVC. |
| Estamal da anatica a | \(\text{\tin}\text{\tin}\text{\tin}\tint{\text{\text{\tin}\text{\text{\text{\text{\text{\text{\text{\tex{\tex |
| External decorations | Visually inspected. Timbers and parts of the masonry have been painted. |
| Conservatories / porches | None. |

| Communal areas | N/A |
|------------------------------------|--|
| | |
| Garages and permanent outbuildings | Visually inspected. |
| | There is a double car sized car port within the grounds is of stone/blockwork construction with a flat roof overlaid in corrugated sheeting. |
| | There are outbuildings pertaining to the property which are of stone construction with pitched roofs overlaid in slate and accessed via timber doors. |
| Outside areas and boundaries | Visually inspected. |
| | There are grounds to the front, side and rear of the property overlaid in a mixture of materials including lawn and paving and bound in part by masonry walls. There are some masonry walls within the grounds. Some of the walls are retaining in nature. |
| | There is a patio area to the front of the property which is of brick framework with concrete flooring and a artificial grass overlay. There are metal/glass balustrades to this area. |
| | The road and footpath adjoining the site are made up and are assumed to be adopted by the Local Authority. |
| | |
| Ceilings | Visually inspected from floor level. |
| | The ceilings within the property are of plasterboard. |
| Internal walls | Visually inspected from floor level. |
| | Using a moisture meter, walls were randomly tested for dampness where considered appropriate. |
| | The internal walls are of stud partitions, plasterboard lined. |
| Floors including sub floors | Surfaces of exposed floors were visually inspected. No carpets or floor coverings were lifted. |
| | The flooring is of suspended timber which is assumed to be overlaid with chipboard or similar. Various coverings exist above. |

| Internal joinery and kitchen fittings | Built-in cupboards were looked into but no stored items were moved. |
|---------------------------------------|--|
| | Kitchen units were visually inspected excluding appliances. |
| | Skirtings and architraves pertaining to the property are of timber, painted and varnished in places with the internal pass doors being timber units of panel and glazed panel design. The kitchen and utility areas have wall and floor mounted units. |
| Chimney breasts and fireplaces | Visually inspected. |
| | No testing of the flues or fittings was carried out. |
| | There is a living flame effect gas fire in the living room/dining room. |
| | |
| Internal decorations | Visually inspected. |
| | The internal decoration is of wallpaper and paint. |
| Cellars | N/A |
| Electricity | Accessible parts of the wiring were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on. Electricity is from the mains grid with the meter located within |
| | a box to the exterior of the property and the fuse box located within the utility area. |
| Gas | Accessible parts of the system were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on. There is a private LPG supply with the tank located within the grounds. |

Water, plumbing, bathroom fittings

Visual inspection of the accessible pipework, water tanks, cylinders and fittings without removing any insulation.

No tests whatsoever were carried out to the system or appliances.

Cold water is from the mains supply and where seen plumber fittings are of copper and PVC pipework. The sanitary arrangements comprise a four piece bathroom suite, a four piece bathroom suite within the en-suite of the master bedroom and a three piece shower suite within the Jack and Jill en-suite.

Heating and hot water

Visual inspection of the accessible pipework, water tanks, cylinders and fittings without removing any insulation.

No tests whatsoever were carried out to the system or appliances.

Hot water is supplied via a wall mounted combination boiler situated within the utility. The boiler serves the central heating system via radiators.

Drainage

Drainage covers etc. were not lifted.

Neither drains nor drainage systems were tested.

There are understood to be private drainage arrangements by way of a private septic tank. The maintenance liability, rights of access and SEPA consents should be confirmed.

Fire, smoke and burglar alarms

Visually inspected.

No tests whatsoever were carried out to the system or appliances.

All Scottish homes require a smoke alarm to be installed in the room most frequently used for living purposes and in every circulation space on each floor. A heat alarm also needs to be installed in each kitchen. The alarms need to be ceiling mounted and interlinked. Where there is a carbonfuelled appliance such as a boiler, open fire or wood burner, a carbon monoxide detector is also required. We have not assessed or tested any existing equipment and it is the purchasers responsibility to confirm that the property will comply with these standards following a change of ownership.

Any additional limits to inspection

For flats / maisonettes

Only the subject flat and internal communal areas giving access to the flat were inspected.

If the roof space or under-building / basement is communal, reasonable and safe access is not always possible. If no inspection was possible, this will be stated. If no inspection was possible, the surveyor will assume that there are no defects that will have a material effect on the valuation.

The building containing the flat, including any external communal areas, was visually inspected only to the extent that the surveyor is able to give an opinion on the general condition and standard of maintenance.

An inspection for Japanese Knotweed was not carried out. This is a plant which is subject to control regulation, is considered to be invasive and one which can render a property unsuitable for some mortgage lenders. It is therefore assumed that there is no Japanese Knotweed within the boundaries of the property or its neighbouring property. Identification of Japanese Knotweed is best undertaken by a specialist contractor.

The property was fully furnished and had fitted floor coverings, therefore no detailed inspection was possible of the floors and accordingly, no comment can be made on their condition. Internal cupboards were generally filled with storage items. No access was available beneath sanitary or kitchen fittings.

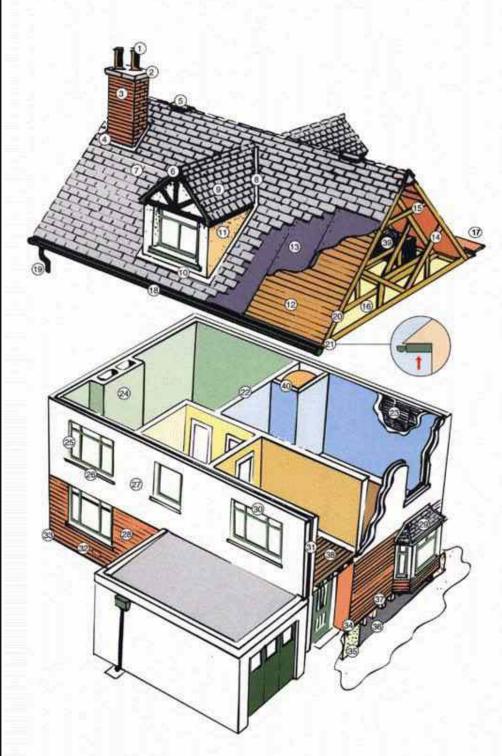

Windows and external doors were not all fully opened or tested.

No access was available to any sub-floor areas.

Full and safe access was not available to the roof void area due to partial flooring/lining, insulation and storage items.

Our view of the outbuildings was severely restricted.

Sectional Diagram showing elements of a typical house

Reference may be made in this report to some or all of the above component parts of the property. This diagram may assist you in locating and understanding these items.

- 1) Chimney pots

2. Condition

This section identifies problems and tells you about the urgency of any repairs by using one of the following three categories:

| Category 3 | Category 2 | Category 1 |
|------------|---|------------|
| | Repairs or replacement requiring future attention, but estimates are still advised. | • |

| Structural movement | |
|---------------------|--|
| Repair category | 1 |
| Notes | There was no evidence of significant structural movement within the limitations of our inspection. |

| Dampness, rot and infestation | |
|-------------------------------|--|
| Repair category | 1 |
| Notes | Damp meter readings were taken where considered appropriate within the property and moisture levels were found to be within an acceptable range. |

| Chimney stacks | |
|-----------------|-----|
| Repair category | N/A |
| Notes | |

| Roofing including roof space | |
|------------------------------|---|
| Repair category | 2 |
| Notes | A couple of loose/chipped tiles/ridge tiles were noted which we understand were damaged during a recent storm. We have been informed these have to be repaired by the vendor. |

| Rainwater fittings | |
|--------------------|---|
| Repair category | 1 |
| Notes | Within the limitations of our inspection rainwater goods were seen to be free from significant defect. We would highlight that it was not raining at the time of our inspection and we would recommend that all rainwater fittings be inspected during heavy |
| | rainfall in order to ensure they are free from defect. |

| Main walls | |
|-----------------|--|
| Repair category | 2 |
| Notes | Areas of cracked masonry were noted along with bossed render in places and open mortar joints. Repairs and general ongoing maintenance will be required. |

| Windows, external doors and joinery | |
|-------------------------------------|---|
| Repair category | 1 |
| Notes | Windows were not all fully opened or tested, and it should be appreciated that some defects are only evident during certain weather conditions. Within the limitations of our inspection, no significant defects were noted. |

| External decorations | |
|----------------------|--|
| Repair category | 1 |
| Notes | Paint finished and decorated external surfaces will require redecoration on a regular basis. |

| Conservatories/porches | |
|------------------------|-----|
| Repair category | N/A |
| Notes | |

| Communal areas | |
|-----------------|-----|
| Repair category | N/A |
| Notes | |

| Garages and permanent outbuildings | |
|------------------------------------|--|
| Repair category | 2 |
| Notes | Woodworm borings were noted to timbers of the carport along with damp staining to timbers in places. Repairs and general ongoing maintenance will be required. The outbuildings are in semi-derelict condition with defective masonry and |
| | roof coverings as well as decay to timbers. Repairs and ongoing maintenance will be required. |

| Outside areas and boundaries | |
|------------------------------|---|
| Repair category | 1 |
| Notes | Boundary walls and fences should be regularly checked and maintained as necessary. A loose section of glass balustrade was noted however we have been informed this is to be repaired by the vendor. Any retaining walls will be required to be well maintained and kept in good condition to prevent landslip. |

| Ceilings | |
|-----------------|---|
| Repair category | 1 |
| Notes | Within the limitations of our inspection no significant defects were noted. |

| Internal walls | |
|-----------------|---|
| Repair category | 1 |
| Notes | Within the limitations of our inspection no significant defects were noted. |

| Floors including sub-floors | |
|-----------------------------|--|
| Repair category | 1 |
| Notes | Due to fitted carpets and floor coverings no detailed inspection of floors was possible and accordingly no comment can be made on their condition. |

| Internal joinery and kitchen fittings | |
|---------------------------------------|--|
| Repair category | 1 |
| Notes | Low level internal glazing should be checked for safety glass. |

| Chimney breasts and fireplaces | |
|--------------------------------|--|
| Repair category | 1 |
| Notes | It is assumed that the gas fire has been installed in accordance with the manufacturer's recommendations for fluing and ventilation and that this has been regularly checked and tested. All test documentation should be obtained and authenticated at the point of sale. In the absence of any such documentation, the appliance should be tested by a registered engineer prior to use. |

| Internal decorations | |
|----------------------|---|
| Repair category | 1 |
| Notes | The property is in reasonable decorative order. |

| Cellars | |
|-----------------|-----|
| Repair category | N/A |
| Notes | |

| Electricity | |
|-----------------|--|
| Repair category | 1 |
| Notes | The Institution of Engineering Technology recommends that inspections and testings are undertaken at least every five years and on a change of occupancy. It should be appreciated that only the most recently constructed or re-wired properties will have installations which fully comply with IET regulations. |

| Gas | |
|-----------------|---|
| Repair category | 1 |
| Notes | In the interests of safety and in light of recent regulations it would be prudent to have all gas appliances checked by a Gas Safe registered contractor. |

| Water, plumbing and bathroom fittings | | |
|---------------------------------------|---|--|
| Repair category | 1 | |
| Notes | Sanitary fittings appear serviceable however surround seals, tiling and finishes should be checked and maintained watertight. We were unable to view concealed areas below sanitary fittings and cannot confirm they are free from damp or other defects. | |

| Heating and hot water | | |
|-----------------------|--|--|
| Repair category | 1 | |
| Notes | It is assumed that the central heating system has been properly installed, updated and maintained to meet with all current regulations and standards with particular regard to fluing and ventilation requirements. Service records should be obtained and checked. In the absence of service documentation further advice should be obtained from a qualified heating engineer to ascertain the condition, efficiency, and life expectancy of the system. | |

| Drainage | |
|-----------------|--|
| Repair category | 1 |
| Notes | There are understood to be private drainage arrangements by way of a private septic tank. The maintenance liability, rights of access and SEPA consents should be confirmed. |

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the previous comments for detailed information.

| Structural movement | 1 |

| Cellars | N/A |
| Electricity | 1 |
| Gas | 1 |
| Water, plumbing and bathroom fittings | 1 |
| Heating and hot water | 1 |
| Drainage | 1 |

Category 3

Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.

Category 2

Repairs or replacement requiring future attention, but estimates are still advised.

Category 1

No immediate action or repair is needed.

Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

3. Accessibility information

Guidance notes on accessibility information

Three steps or fewer to a main entrance door of the property:

In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Wherea lift is present, the count is based on the number of steps climbed when using the lift.

Unrestricted parking within 25 metres:

For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coin-operated machines.

| 1. Which floor(s) is the living accommodation on? | | Ground | | |
|--|-----|--------|----|---|
| 2. Are there three steps or fewer to a main entrance door of the property? | Yes | X | No | |
| 3. Is there a lift to the main entrance door of the property? | Yes | | No | X |
| 4. Are all door openings greater than 750mm? | Yes | | No | X |
| 5. Is there a toilet on the same level as the living room and kitchen? | Yes | X | No | |
| 6. Is there a toilet on the same level as a bedroom? | Yes | X | No | |
| 7. Are all rooms on the same level with no internal steps or stairs? | Yes | X | No | |
| 8. Is there unrestricted parking within 25 metres of an entrance door to the building? | Yes | X | No | |

4. Valuation and conveyancer issues

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated reinstatement cost for insurance purposes.

Matters for a solicitor or licensed conveyancer

The exact boundary lines pertaining to the subject property should be confirmed prior to purchase including the area and the exact extent of the outbuildings.

There are understood to be private drainage arrangements by way of a private septic tank. The maintenance liability, rights of access and SEPA consents should be confirmed.

It appears that some alterations have been carried out to the property over the years including a Jack and Jill en-suite created between two of the bedrooms. Our valuation assumes that all necessary Local Authority certification has been obtained.

Where defects or repairs have been identified within this report it is recommended that, prior to entering into any legally binding sale or purchase contract, further specialist's or contractor's advice and estimates should be obtained, to establish the implications, if any, on a potential offer to purchase or the sale price likely to be achieved for the property.

Estimated reinstatement cost for insurance purposes

For Reinstatement Cost Assessment purposes, it is recommended that the subjects be insured for a sum of not less than £660,000 (SIX HUNDRED AND SIXTY THOUSAND POUNDS STERLING).

This figure is the estimate of the cost of rebuilding the premises and bears no direct relationship to current market value.

Valuation and market comments

Having considered matters, taking account of our general observations on site, we are of the opinion that the Market Value of the subjects in their present condition and with the benefit of vacant possession may be fairly stated in the sum of £600,000 (SIX HUNDRED THOUSAND POUNDS STERLING).

The property forms suitable security for mortgage purposes subject to the specific lending criteria of any mortgage provider.

General Remarks

Other accommodation - utility.

At the time of inspection the property was found to be in reasonable condition having regard to its character and age with items of disrepair noted which can be remedied during the course of routine maintenance and repair.

Due to fitted carpets and floor coverings no detailed inspection of floors was possible and accordingly no comment can be made on their condition.

The outbuildings are in a semi-derelict condition and will require full overhaul.

The exact boundary lines pertaining to the subject property should be confirmed prior to purchase including the area and the exact extent of the outbuildings.

There are understood to be private drainage arrangements by way of a private septic tank. The maintenance liability, rights of access and SEPA consents should be confirmed. #

It appears that some alterations have been carried out to the property over the years including a Jack and Jill en-suite created between two of the bedrooms. Our valuation assumes that all necessary Local Authority certification has been obtained.

Original Site Notes saved by Mr David Breingan on Sat, 8 Mar 2025 17:07:44

Subject is a large all on the level detached bungalow in a decent and desirable semi rural locale on the hillside with un-interupted sea views as per comps 1 and 2 but they are in town with amenities close at hand. Comp 2 is larger as is 3 but it needs some upgrading and not as good view but is in decent street. Subject has benefit of outbuildings but they are semi derelict and will need some work to bring back to use.

Range £592k-£617k Subject is decent Value £600,000

| 13. | Specialist work | |
| a. | As far as you are aware, has treatment of dry rot, wet rot, damp or any other specialist work ever been carried out to your property? | No |
| | If you have answered yes, please say what the repairs were for, whether you carried out the repairs (and when) or if they were done before you bought the property. | |
| b. | As far as you are aware, has any preventative work for dry rot, wet rot, or damp ever been carried out to your property? | No |
| | If you have answered yes, please give details: | |
| C. | If you have answered yes to 13(a) or (b), do you have any guarantees relating to this work? | |
| | If you have answered yes, these guarantees will be needed by the purchaser and should be given to your solicitor as soon as possible for checking. If you do not have them yourself please write below who has these documents and your solicitor or estate agent will arrange for them to be obtained. You will also need to provide a description of the work carried out. This may be shown in the original estimate. | |
| | Guarantees are held by: | |
| 14. | Guarantees | |
| | | |

| | (i) Electrical work | No | |
|-----|---|-----------|--|
| | (ii) Roofing | No | |
| | (iii) Central heating | No | |
| | (iv) National House Building Council (NHBC) | No | |
| | (v) Damp course | No | |
| | (vi) Any other work installations? (for example, cavity wall installation, underpinning, indemnity policy) | No | |
| b. | If you have answered 'yes' or 'with title deeds', please give details of the installations to which the guarantee(s) relate(s): | e work or | |
| C. | Are there any outstanding claims under any of the guarantees listed above? If you have answered yes, please give details: | No | |
| 15. | Boundaries | | |
| | So far as you are aware, has any boundary of your property been moved in thelast 10 years? | No | |
| | If you have answered yes, please give details: | | |
| 16. | Notices that affect your property | | |
| | In the past three years have you ever received a notice: | | |
| a. | advising that the owner of a neighbouring property has made a planning application? | No | |
| b. | that affects your property in some other way? | No | |
| C. | that requires you to do any maintenance, repairs or improvements to your property? | No | |
| | If you have answered yes to any of a-c above, please give the notices to yo or estate agent, including any notices which arrive at any time before the d of the purchaser of your property. | | |
