THE PROPERTY

8A Barrack Street is a fine and substantial double-fronted Georgian town house, in a favoured position close to the town centre. The building dates back to the 18th century, and has classic stucco front elevations. It is listed grade 2, of architectural or historic importance. The building has been converted into four apartments and a shop.

Flat 2 is located on the first floor and benefits from upgrading. Modern amenities include electric heating, modern fitted kitchen with electric ceramic halogen hob, electric oven plus plumbing for washing machine and a modern en-suite shower room with walk-in shower incorporating mains shower.

The accommodation is well proportioned and character features include high ceilings, sash windows, window seats and a colour-washed exposed brick wall within the living room.

The property will appeal to a whole range of buyers (see restrictions below). No chain.

OUTSIDE

Residents' parking permits are available in Barrack Street and there is a long stay Council car park at East Street with, again, permits (both subject to charges).

SITUATION

The property enjoys a prime location within the town centre and within only a few minutes' walk of the shops and amenities. Barrack Street is a very popular and well established no-through road just off East Street, largely made up of period houses.

Bridport is a thriving and historic market town known for its wide streets. There are excellent shopping, business and leisure facilities, art centre, leisure centre and a popular twice-weekly street market. The wonderful coast at West Bay is only a few miles to the south with a lovely harbour, bathing beaches and access to the stunning Jurassic Coastline.

SERVICES

Mains electricity, water and drainage. Electric heating (Economy 7). Broadband - Standard up to 21Mbps and Superfast up to 80Mbps. Mobile phone service providers available are EE, Three, O2 and Vodafone for voice and data services inside and outside. (Broadband and mobile phone information taken from Ofcom website Results are predictions and not a guarantee. Actual services available may be different from results and may be affected by network outages).
