Hampdon Cottage is a superb cottage that is bursting with character and offers a beautiful property if you are looking for a ready to go holiday let, permanent residence or bolt hole by the sea. This cottage is generous enough for all discerning purchaser and is only a stones throw from the beach and all amenities. The accommodation is set over four floors; the lower ground floor has a large kitchen/diner with modern wall and base units, double oven and integral appliances with enough room for a large dining table. There is also rear door access to the rear of the property from the upper landing. The ground floor offers a large lounge with original fireplace and stunning stripped, wooden floors. There is the addition of a front porch. The first floor has a large double bedroom with original features and a separate family bathroom. The second floor offers two further double bedrooms with cloakroom. The property is warmed with central heating and has a sunny outlook with lots of natural light flooding the floors. Throughout the property there are plenty of original features but also a modern feel. This property has the added benefit of a large outhouse, which used to be the coal house for the row and then the wash house. Currently it is used as a small shop but it would also make a wonderful workshop or artist's studio. With all the wonderful views and landscapes surrounding the heritage coast, no wonder Staithes is an artist's paradise!

This energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills will be.

England & Wales EU Directive 2002/91/EC

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating the less impact it has on the environment.

Estimated energy use, carbon dioxide (CO₂) emissions and fuel costs of this home

	Current	Potential
Energy Use	453 kWh/m ² per year	178 kWh/m ² per year
Carbon dioxide emissions	13 tonnes per year	4.5 tonnes per year
Lighting	£81 per year	£88 per year
Heating	£1123 per year	£457 per year
Hot water	£219 per year	£104 per year

Based on standard assumptions about occupancy, heating patterns and geographical location, the above table provides an indication of how much it will cost to provide lighting, heating and hot water to this home. The fuel costs only take into account the cost of fuel and not any associated service, maintenance or safety inspection. The certificate has been provided for comparative purposes only and enables one home to be compared with another. Always check the date the certificate was issued, because fuel prices can increase over time and energy saving recommendations will evolve.

To see how this home can achieve its potential rating please see the recommended measures.

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more efficient the home is and the lower the fuel bills will be.
