ASTIN'S

Astins are proud to bring to market this exceptional 2 bed property that is simply a straight walk in and offers an excellent base for the town. A romantic property steeped in history that reflects Whitby's maritime heritage. Low Stakesby House was built circa 1768 by shipowner Thomas Scarth for his brother, Jonathan. The Chapman family, who had ties to Captain James Cook, followed for much of the 1800s, while in the 1900s – until its conversion into smaller units in the 1960s – the house was owned by the Harrowing family, headed by prominent shipowner and broker, Sir John Henry Harrowing. No. 9 was originally a coach house and subsequently the kitchen and servants' quarters attached to the main house. If only walls could talk! Currently the property is sympathetically decorated throughout and offers superb accommodation, whether looking for a downsize property, or permanent residence this property ticks many boxes. The ground floor offers a large lounge with feature, inglenook fireplace and two large sash windows overlooking the front courtyard. There is a separate dining room that could be used as a third ground floor bedroom if desired, there is a large entrance hall and a recently fitted, bespoke modern kitchen with integral high spec appliances and ample storage. To the first floor there are two double bedrooms with en-suite to the master and large family bathroom. The master bedroom has a beautifully unique original window

13-26 F			86-95 F		
1-12 G			96-105 G		

England & Wales EU Directive 2002/91/EC

The energy efficiency rating is a measure of the overall energy of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills will be.

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating the less impact it has on the environment.

Estimated energy use, carbon dioxide (CO₂) emissions and fuel costs of this home

	Current	Potential
Energy Use	453 kWh/m ² per year	178 kWh/m ² per year
Carbon dioxide emissions	43 tonnes per year	4.9 tonnes per year
Lighting	£81 per year	£86 per year
Heating	£1123 per year	£457 per year
Hot water	£219 per year	£104 per year

Based on standardised assumptions about occupancy, heating patterns and geographical location, the above table provides an indication of how much it will cost to provide lighting, heating and hot water to this home. The fuel costs only take into account the cost of fuel and not any associated services, maintenance or safety inspection. The certificate has been provided for comparative purposes only and enables one home to be compared with others. Always check the date the certificate was issued, because fuel prices can increase over time and energy saving recommendations will evolve.

To see how this home can achieve its potential rating please see the recommended measures.

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more efficient the home is and the lower the fuel bills will be.
